## FOOL-PROOF WORLD CAN'T CRUMBLE, MILLIKAN SAYS

### Scientist Avers He Hears Birth Cry of Atoms to Prove Iron Made in Interstellar Space

NEW YORK, Sept. 4. (AP)—Prediction that evidence of the existence of iron in interstellar space is almost within reach of scientific demonstration was made tonight by Dr. Robert A. Millikan, physicist, of the California Institute of Technology. Dr. Millikan, who has been linked by Dr. Millikan with the assertion that the world is "fool proof" so that the earth is not likely to be destroyed by atomic splitting up on a gigantic scale.

## SEVEN DIE IN AIR CRASH

### Mail Plane Falls in Idaho

#### Pilot, Three Men, Woman and Two Children Are Victims

#### Accident Occurs When Craft Stalls During Maneuvers to Make Landing

SALT LAKE CITY, Sept. 4. (Exclusive)—Seven persons, six passengers and the pilot, were killed instantly at noon today when a Boker superuniversal plane coming in to Pocatello, Idaho, on regular mail trip from Great Falls to Salt Lake City, crashed. The dead are: Paul Wheatley, pilot; Jesse Richards, secretary of the Ogden (Utah) Chamber of Commerce; F. A. Zimmerman, Ogden newspaper man; Mrs. Lawrence C. Shaper and two children, one 6 years of age and one 18 months.

W. A. McLean, traveling representative of the Ogden Chamber of Commerce, was injured. The baby lived a few minutes.

#### ACCIDENT AT LANDING

The accident happened as the plane was about to land. The pilot was making a stall landing when the plane stalled and fell.

The National Parks Airways, Inc., which operates the Great Salt Lake air-mail line June 30, last. The planes are of the six-passenger cabin type and from the start has been popular as a passenger service.

It was with difficulty that the bodies were taken from the wreckage. The National Parks Airways, Inc., which operates the Great Salt Lake air-mail line June 30, last. The planes are of the six-passenger cabin type and from the start has been popular as a passenger service.

Holland's Queen to Be Censured

AMSTERDAM, Sept. 4. (AP)—Deep regret that Queen Wilhelmina had desecrated the Lord's day by awarding prizes on Sunday to the winners in the Olympic Games was unanimously expressed today by the members of the Amsterdam Christian Reformed Church. They decided to inform the Queen of this opinion in a letter.

It is said that this was the first time that an individual parish has ventured to censure the Queen.

## THREATS HIT TAX PLAN

### Interests Show Opposition

#### Senator Chamberlin Offers Amendment Designed to Avoid Issue

#### Measure Greatly Changed from Idea Advocated in Young Message

SACRAMENTO, Sept. 4. (AP)—The Senate and Assembly revenue and taxation committees meeting in joint session tonight, voted to send constitutional tax amendment No. 1 submitted by the California Tax Commission to the Legislature tomorrow with a "do pass" recommendation. The Senate committee voted unanimously for the measure while the Assembly committee gave a majority vote of 9 to 3 in its favor.

BY C. A. JONES

"Times" Staff Representative

SACRAMENTO, Sept. 4. (Exclusive)—Vehement threats of determined opposition to the proposed constitutional amendment on bank and corporation taxes, if it appears on the November 6 ballot in its present form, featured the first day of the special session of the Legislature as the revenue and taxation committees of the Senate and Assembly prepared for a night long battle on the measure.

A. L. Well, Pacific Coast counsel of the Standard Oil Company of New York, injected the question of allowance for depletion while the two houses sat in joint committee of the whole. He referred, in his questions, not only to oil companies but to lumber, mining and other concerns dealing in natural resources which are constantly depleted. He showed his industry was not at all satisfied with the justice of the proposed measure.

INTERESTS DISSATISFIED

Real estate, construction and agricultural interests, who came to Sacramento in a doubtful frame of mind, waiting to see the final draft of the proposed amendment, are by no means satisfied.

The amendment, which went into the Senate by Senator Nelson of Eureka and into the Assembly by Jerry West of Sacramento, provides for an income tax on banks and certain corporations, equal to 4 per cent of net income and a 3 mill rate on intangible securities.

The amendment was taken up and again and is now totally dissimilar to that proposed in the Governor's message of August 16. Both houses adjourned after organizing this morning and assembled jointly this afternoon, still without copies of the measure.

MARTIN SPEAKS

Irrving Martin, chairman of the \$75,000 State Tax Commission, made a speech. Then the printed copies arrived. Senator Nelson, who for three weeks has been earnestly struggling to compose all differences and meet a situation in which our decisions have upset entirely the bank-taxation structure of California, assumed the rostrum and began explaining the measure, paragraph by paragraph.

He said that the State bank and corporation taxes are joined in the amendment with the low intangible tax because both must carry to become effective. It is generally admitted that the popularity of the low intangible tax is expected by the administration to carry the whole amendment to success.

The amendment, said Senator Nelson, has been rewritten in conformity with Federal statutes so that the 4 per cent income tax will fall upon financial, mercantile, manufacturing and business corporations alone. He said he thinks this will exempt the provisions of the surety real-estate concerns and fraternal and social organizations of a nonprofit nature. In answer to a question by Dr. George Stachich of Sakersfield, president of the California Taxpayers Association, he said he understood purely holding corporations were exempt in New York but he was not sure of California. Dr. Stachich contended, means double taxation.

ELASTICITY GIVEN

A certain amount of elasticity has been given to the measure.

(Continued on Page 3, Column 4)

"Tend to Your Own Business"

All of the sting is taken out of that remark when it is made in a constructive, not flippant manner.

And that's the suggestion that The Times is passing on to you.

It's easy for you to act on this suggestion when you follow the interesting and profitable offers made daily in the classified "Business Opportunities" columns of

WASHINGTON, Sept. 4. (AP)—The Supreme Court was asked today to decide whether clubs are liable for damages to wives for depriving them of the companionship of their husbands and a part of their husband's income.

The case came from McGill, White Pine County, Nevada, and was brought by Mrs. Gladys Anderson against the McGill Club, where she asserted her husband played poker.

She declared in her suit that her husband spent much of his time at the club and lost a large portion of his salary, causing her "worry, humiliation, sickness and grievous mental pain."

## ZIMMERMAN FALLS BEHIND AGITATION BY SOVIET

### Wisconsin Governor Third With Kohler Leading; La Follette Appears Victor

MILWAUKEE (Wis.) Sept. 4. (AP)—In his quest of a second term as Governor of Wisconsin, Fred R. Zimmerman, follower of the late Senator Robert M. La Follette, apparently was defeated in the primary election today, on the basis of early returns. The choice for the nomination lay between Representative Joseph D. Beck, Progressive candidate, and Walter J. Kohler, Conservative, who were making a close race.

Senator La Follette apparently has scored a not unexpected victory over George W. Mead.

The vote in the Republican Governorship contest, with 735 of the State's 2780 precincts counted, was: Beck, 41,339; Kohler, 45,234; Zimmerman, 20,047.

For Senator on the Republican ticket the vote in 684 precincts was: La Follette, 51,544; Mead, 27,168.

Indications were that the interest in the outcome had brought out a larger vote than was recorded in the 1926 primary.

Without opposition the Democrats nominated their candidates for the two major offices—former Congressman M. K. Reilly for United States Senator and Mayor Schmiedeman of Madison, for Governor.

GOVERNOR LEADS

DETROIT, Sept. 4. (AP)—Returns from 771 precincts out of 3184 in the State in the Republican contest for the gubernatorial nomination in today's primary gave: Gov. Fred W. Green, 91,049; George W. Welsh, 36,437. The same precincts gave William A. Comstock, Democrat, 712; G. Elmer McArthur, Republican, 527; Frank J. Sawyer, Democrat, 82; Theodore H. Elferink, Democrat, 18.

Eight members of Congress, all Republicans, were renominated without opposition. All will be opposed in November by Democratic candidates.

Will Rogers Remarks:

SANTA MONICA, Sept. 4. (To the Editor of The Times): I have been labeled by my friend Brisbane. In his editorial he says that at one time I was a Sunday-school teacher. He is wrong. I went, but I didn't teach. I didn't even take up the collection, some banker always did that.

On account of me being a candidate he is trying to drag me into all this religious controversy. You see, if he can prove that I was connected with a Sunday-school it will lose me the Catholic and Jewish votes, and if he can prove that it was a Methodist Sunday-school, it will lose me the Baptists.

All religions in this campaign seem to be a handicap that I think it's better to claim you are an atheist.

Club Named as Co-respondent in Appeal by Wife

WASHINGTON, Sept. 4. (AP)—The Supreme Court was asked today to decide whether clubs are liable for damages to wives for depriving them of the companionship of their husbands and a part of their husband's income.

The case came from McGill, White Pine County, Nevada, and was brought by Mrs. Gladys Anderson against the McGill Club, where she asserted her husband played poker.

She declared in her suit that her husband spent much of his time at the club and lost a large portion of his salary, causing her "worry, humiliation, sickness and grievous mental pain."

## HASSELL DESCRIBES FLIGHT AND GREENLAND RESCUE

### Story Reveals Triumph Over Fog, Winds, Ice, Quicksand and Starvation

[Bert R. J. Hassell is writing his own story of the flight of the Greater Rockford plane to Greenland and his experiences after being forced down. This story appears only in The Times in Southern California.]

BY BERT R. J. HASSELL

Pilot of the Plane Greater Rockford, Rescued in Greenland

[Copyright, 1928, in the United States, Great Britain, Canada, South America, Mexico and Cuba by the New York Times Company.]

MT. EVANS (Greenland) Sept. 4. (Exclusive)—On August 18 we left Rockford with Cochrane, Ont., as our destination. With an escort of four Stinson monoplane and one Fairchild we were accompanied as far as Janesville, Wis.

Everything was going along wonderfully well with the lead when we set our first check point, Green Lake, Wis. We held our course through Wisconsin and Ontario and arrived at our first stop, Cochrane, after six hours and forty-five minutes.

Friday the 17th the weather conditions held us up and on Saturday the 18th, at noon, we took off with the Mt. Evans base in Greenland as our second stop.

Much credit is to be given to the citizens of Cochrane for the facilities with which they made it possible for us to take off. We were constantly on our course to Rupert House and circled that place in order to determine our exact location.

STORM HALTS MESSAGE

From there north through the area of Quebec and Ungava we saw several signs which could be made into bases for commercial work.

We sent no radio messages after leaving Rupert House because of a storm which we were forced to swing around. Our location there fore had it been sent would have been erroneous. Nightfall reached us while we were in the area of Ungava. We were positive that daylight would come before we reached Fort Burwell or Cape Chidley.

It did and gave us an exact check on our course in starting over the Davis Strait.

The flight across the straits was very clear for the first fifteen minutes. Then we ran into a state of low clouds which continued for two or three hours and prevented us from making any but true to drift calculations.

True to Prof. Hobbs' prediction found that the icebergs of the Greenland coast were close to the shore and outside of backing a terrific head wind, Greenland was indeed a pleasant sight. We hit the Greenland coast at what we afterward learned to be Pitmeavara where we could see a broad arm of ice clinging to the coast line.

GAS SUPPLY LOW

In our search for the Sondre Stromfjord we were soon convinced that we were not in the district that would take us to Prof. Hobbs' camp and as our gasoline supply was getting exceedingly low, being now over the ice, we determined that it would be shorter to fly in direct air line. Over this island we encountered a strong east wind which helped us materially.

We came to the beginning of the arm of ice of the Sondre Stromfjord. Lake Tasarsuaq with its ice and sand flats, offered some semblance to what we expected to find at the University of Michigan expedition's last landfall. We landed at Tasarsuaq for some time in a search for a field under a mountain wall, such as had been described to us.

This was our first landfall. We found a field where at times the plane would barely scrape the tops of mountains and ice we found the air so rough that it was a hard job to keep our seats.

Realizing now that our gasoline was at its very lowest we decided to make toward the inland ice again and come down on some flat area which would save the ship.

We found such an area, covered with ice and made our landing. Shortly (Parker) came to the rescue. I sent out messages that we had landed on the ice and were waiting for Camp Lloyd which, at that time we felt was probably a day away.

Equipped with parkas (skinmoose clothing) our collapsible boat and provisions we started over the ice to the land border. We encountered many hardships when we reached the crevasses within the ice, but with the aid of a very complete map we were able to make elevations as to the streams which we traced.

FOOD GIVES OUT

The walk that we had expected would last for only twenty-four hours turned into days, as it was necessary for us to return to the

Pal of Suspect in Mexico Who "Vouches" for Him Must Stand Trial and Incur Part-Sentence

EAGLE PASS (Tex.) Sept. 4. (AP)—John Crosby, Jr., of Del Rio, who surrendered to Mexican authorities at Villa Acuna yesterday when his friend, Tom Whitehead, Del Rio ranchman, failed to appear to stand trial on the slaying of John Kaster of New Braunfels, Tex., at Villa Acuna Saturday, was lodged in the jail at Piedras Negras, Mex., opposite here, today.

Mexican officials say that Crosby will be given a trial before the Federal judge of the Rio Grande district at Piedras Negras and will be held there pending the outcome.

Meanwhile, Whitehead, who allegedly engaged Kaster in a fight at Villa Acuna, opposite Del Rio, and is charged with inflicting injuries which resulted in Kaster's death, apparently had disappeared. Nothing had been seen of him since he was released from custody after Crosby had been permitted to "vouch" for him. Authorities of

Mexican law, however, does not take into account the fact that Crosby did not participate in the slaying of Kaster. When he offered himself as assurance that his friend would return for trial, he assumed his friend's liability, in the event his principal did not appear, say Mexican statutes.

Under the law Crosby will stand trial for murder and the penalty may be assessed exactly as it would have been against Whitehead. Then the judge will cut the penalty exactly in half.

## INQUIRY IN DEATH SET FOR TODAY

### Inquest Called at Villa Acuna in Hunting Mischief Took Hotel Man's Life

An inquest into the death of Wood Hunter, 36 years of age, of the Merritt Jones Hotel, at Ocean Park, will be conducted tomorrow at Villa Acuna.

The inquest was called after a coroner's jury had returned a verdict of death by homicide in the case of the hotel man's death.

The inquest will be held at the hotel where the man was killed.

**MONTH IN JAIL FOR MRS. KNAPP**  
New York Official Shows Leniency  
Refuses to Suspend Thirty-Day Sentence  
General Asks Mercy on Leniency Charge  
ALBANY, N. Y., Sept. 4. (AP)—The State of New York, former Governor E. S. Knapp, former Governor of New York, was sentenced to thirty days in the Albany County Jail, after being found guilty of grand larceny, first degree, in connection with her admission to the State census funds.  
The Attorney-General based his recommendation for a suspended sentence on "The charges against the defendant beginning with the crime charged in the indictment, because of their present continuance, her physical and mental suffering, her exposure, disgrace and complete ruin, and because of the State's debt to Clara Blanche Knapp (Mrs. Knapp's step-daughter and principal witness for the prosecution)."  
Overruling the recommendation, Justice Callahan said: "I have considered carefully every aspect of her case and all that has been said in her favor and after mature thought and deliberation I am fully convinced that justice would not be served by a suspension of sentence."

**JOHN SPHINX COOLIDGE EQUALS DADDY'S CLAM-LIKE GARRULITY**  
CHICAGO, Sept. 4. (Exclusive)—The Coolidge reputation for tactfulness suffered none from the passage through Chicago today of son John. He was smilingly pleasant, but firmly silent.  
"Have you decided where you will go to work?" he was asked.  
"I have nothing to say."  
"Are you going to New York to see about a job?"  
"I have nothing to say."  
"Do you expect to see Miss Trumbull in the East?"  
"I have nothing to say," and the smile faded as the reporters stepped on strictly private ground.  
"Will you go right to work or play around a while?"  
"I have nothing to say."  
"Mr. Coolidge has nothing to say," added the secret-service man accompanying him.

**INDIAN LIST OF VICTIMS INCREASES**  
Communal Fighting Adds Eleven to Death Total in Kharapur Conflict  
CALCUTTA (British India) Sept. 4. (AP)—It has been established that eleven were killed and thirty-four injured in the fighting Sunday at Kharapur. Three were injured, one of them fatally, when police fired on the gathering of Hindus and Moslems, while four Mohammedans, one of them a girl, 18 years of age, were found murdered when some houses near-by were raided.  
Aside from stone throwing there were no disturbances Monday. Three bodies, however, were found in the disturbed area, the persons apparently having been murdered overnight. Today the situation was quieter although elaborate precautions were still taken to prevent recurrence. The rioting is said to be of communal origin.  
SIMLA (British India) Sept. 4. (AP)—It has been announced by the Indian Legislative Assembly that 149 persons have been killed and 1348 injured in communal rioting in India since July 1, 1928.

**ENGLAND IN WORRY OVER SIR AUSTEN**  
Foreign Minister Thought Unlikely to Resume Post on His Return Home  
LONDON, Sept. 4. (AP)—The health of Sir Austen Chamberlain, who is seeking a restoration through a prolonged sea voyage to California and Canada, is causing concern in political circles. Reports from the ports at which his ship has called indicate some improvement in the condition of the Foreign Minister but there is a general belief that he is not likely to assume full control of his department immediately upon his return to England on November 7.  
Officials of the Foreign Office said today that they knew nothing about their chief's plans aside from the fact that he had undertaken the sea trip in quest of health. Newspapers, however, especially the nationalist publications of Lord Beaverbrook and Viscount Rothermere, are stressing the misgivings about Sir Austen's physical condition. They lay this to overwork.  
**ROBBERS KILL DETECTIVE**  
CHICAGO, Sept. 4. (AP)—Three robbers, surprised while looting a cigar store today, shot and killed Detective Leonard Jagla. Members of Jagla's squad later captured a man who, they said, is one of the robbers.

The "18" and the "60"  
are the leaders of the new line  
of AC electric RCA Radiolas

**RADIOLAS** of the new "60" series—highly refined Super-Heterodynes—will now compete for public favor with the sensational Radiola 18.  
The "18" is already established as the most popular broadcast receiver of its type ever designed. Its amazing performance, with simplified A. C. electric operation, has revolutionized the radio industry.  
The new Radiola 60 combines the simplicity and dependability of operation of the nationally popular "18" with the unrivalled selectivity and sensitivity of the famous RCA Super-Heterodyne. It is the finest and newest product of the laboratories of General Electric, Westinghouse and the Radio Corporation of America.

- Points of Superiority of the new Radiola Super-Heterodynes ("60" Series)
1. The simplicity and dependability of A. C. electric operation, so successfully utilized in the nationally popular Radiola 18 type of receiver.
  2. The unrivalled super-selectivity and high sensitivity of the Super-Heterodyne circuit—sharply separating nearby stations, and clearly bringing in distant stations.
  3. Fidelity of tone and breadth of musical range never before achieved in radio.
  4. A new method of high amplification without distortion.
  5. New control features never before used in radio.
  6. Beautifully designed and finished cabinets selected by a special committee of artists and cabinet makers.
- Any RCA Radiola Dealer will gladly demonstrate a Radiola in your own home—and tell you how you may conveniently purchase it on the RCA Time Payment Plan.

**RCA RADIOLA 18**  
Most popular type Radiola ever built. Finely designed receiver of broad range and capacity for simplified A. C. lighting-current operation. Wonderful tone fidelity. Illuminated tuning dial. Solid mahogany cabinet, walnut finish.

### RASKOB RAISES DEMOCRAT ANTE

Now Says That Smith Will  
Get 309 Votes

Aids Tell Him Indiana, Ohio  
and Illinois Safe

Thinks His Candidate Will  
Win New York

NEW YORK, Sept. 4. (P)—John J. Raskob, Democratic national chairman, said today on his return from the Robinson notification at Hot Springs, Ark., that the Democratic outlook is even brighter now than it was last week when he said in St. Louis that Gov. Smith will get 309 electoral votes.

En route east, he said, he was assured that Gov. Smith will carry Illinois and Indiana, and also Ohio, if his acceptance speech appealed to farmers as much as State leaders believe it had.

"There were States with 185 electoral votes with which I was not familiar enough to make any prediction when I gave out that St. Louis statement," he said. "I said that we expected to get at least 100 of those. These three States, Illinois, Indiana and Ohio, were included in that 100."

In discussing an analysis of the states by Senator Moses of New Hampshire, vice-chairman of the Republican eastern advisory committee, Chairman Raskob said that Gov. Smith will receive at least 277 electoral votes.

"If you give the South to Smith," he said, "plus Oklahoma, Tennessee and Kentucky, that makes 149 electoral votes."

"Senator Moses does not claim Arizona, Wisconsin, Montana, Maryland or Missouri. There are forty-four more votes."

"Nearly everybody in the East at the minute thinks the Republican chances are as good as the Democratic chances in New York. Massachusetts, New Jersey and Rhode Island. There are eighty-two more electoral votes. The total is 277."

### Wool Growers Answers Heart Balm Charges

SAN FRANCISCO, Sept. 4. (P)—Frank H. Hagenbarth, 58 years of age, president of the American Wool Growers' Association and the Western Tariff Association, today filed in United States District Court here an answer to Miss Rose M. Horn's \$100,000 breach of promise suit, denying that he ever agreed to marry her.

Miss Horn, who has been staying with friends in Fremont, filed the suit after Hagenbarth's marriage to Mabel Marion Nussman of Duluth in Santa Barbara Mission, March 14, last. Hagenbarth formerly was president of the American National Live Stock Association.

### INCREASE IN DEBT LAID TO BOND ISSUE

WASHINGTON, Sept. 4. (P)—An increase of \$121,771,190 in the gross debt of the United States was shown in the monthly Treasury report for August issued today. On August 31, last, the debt was \$17,647,500,000, whereas on July 31, last, it was \$17,525,728,810. The increase, Treasury officials explain, is due to bonds issued in June in preparation for redemption of the Third Liberty loan bonds which mature the 15th inst. That issue had not appeared on the Treasury statement for July.

Called Notable

CISCO (Tex.), Sept. 4. (P)—Senator Robinson arrived here in mid-afternoon after a day's ride from Dallas, during which he got his first touch of strenuous campaign days ahead.

At Fort Smith the Senator hastened from the breakfast table to shake hands with a group on the station platform, and again at Westbrook he was called to the observation platform to greet another crowd. He delivered a short speech.

The Senator also made a platform address at Ranger. Robinson said the Constitution declares that no man shall be "penalized" because of his religious beliefs, and urged every one to look up Gov. Smith's record in New York.

"The Governor has done more for the public-school system there," Senator Robinson declared, "than all the other Governors since reconstruction days, despite the fact that it has been said that he might try and wreck the public-school system if elected to the Presidency."

### STORM KILLS NEGRO

PRESCOTT (Ariz.), Sept. 4. (P)—George Whitney, 45 years of age, negro barber here, formerly of St. Paul, was decapitated yesterday afternoon during an electrical storm near Phoenix while dove hunting with a companion, Frank Young.

### THREE LEAD IN MEXICO RACE

Names of Trevino, Escobar and Gil Most Frequently  
Discussed to Be Picked as Successor to Calles

MEXICO CITY, Sept. 4. (Exclusive)—Three names are being mentioned more frequently than others among Senators and Deputies as those of the men most likely to succeed President Calles, through appointment, as provisional President of the Republic of Mexico.

These names, although their mention carries no official sanction and although no politician of prominence can be found who will take the risk of quoting them, are Gen. Manuel Pura Trevino, Governor of the State of Coahuila; Gen. Jose Guadalupe Escobar, military commander of the same State, and Emilio Portes Gil, the only civilian in the trio and former Governor of the State of Tamaulipas, who was recently appointed Secretary of the Interior by President Calles.

The one appointed will hold office until elections are held for the choice of a constitutional President of the republic.

Having important bearing on the choice of a provisional President, as well as that of the constitutional Executive later, are two points, namely, that this selection will probably be made not later than the 15th inst., but not before an official announcement is made of the election of the late Gen. Obregon and likewise not before his death is recorded officially, as a requisite form of law in the records of the Chamber of Deputies.

### BRITISH FREIGHTER FIGHTS FIRE AT SEA

LONDON, Sept. 4. (P)—Owners of the British freighter Castlemon, en route from South Australia, to Adelaide, wired Lloyd's today that the crew had been fighting a cargo fire for a week. The fire was spreading, but the crew hoped to keep it under control until they reached Adelaide, which was 2200 miles away.

### Walnut Land

Walnuts—a long-life crop—profitable year after year.

They need 30 or 35 feet of soil. Our soil is somewhere between 25 and 140 feet.

Baby Lima Beans are an excellent crop here with walnut trees.

We own 210 acres—use 60 for our lath houses and horticulture. We will sell 150 acres we do not need—same soil as we are using. 1320 feet on S. P. Coast line track.

Soil and climate excellent for alfalfa, Baby Lima beans, Kadota figs, Valencia oranges, walnuts, deciduous fruits, vegetables, dairy business and poultry. Abundance of cheap water.

Renters have alfalfa and beans on our land. Adjacent is the Mulholland orange grove, 300 acres of Kadota figs, very large poultry developments, a citrus packing plant, 2 fig canneries, and 2 nurseries and horticulture establishments—beside our own.

Desirable location for residence and suburban home. Value of investment will grow rapidly and constantly. Quick run to State University via Beverly Glen and to ocean via Topanga. When S. P. tracks are motorized we will have rapid transit to downtown.

Also have 8 acres on "T" track at Chatsworth—good for industry.

Pleased to have your inquiry. Courtesy to agents.

## "The ginger's right... of lime juice I'd say a little more—poquito!"

Evening after evening those connoisseurs  
that gather in Manila clubs passed judgment on a ginger ale...  
till all pronounced it worthy of the name: "Isuan"

SEASONED travelers though they'd been, in all the world they had never tasted a mineral water like Isuan. So tonic, so refreshing. And when one of their number proposed to brew for them a dry ginger ale of Isuan—ah! that was a capital idea.

So it was that little groups in several famed Manila clubs had the opportunity to first taste, to criticize and help perfect a ginger ale that the whole world is coming to know. Evening after evening they sipped and gave opinions.

"The ginger now is right!" .... "a very little more of lime juice, perhaps."

And finally there was brought to them a blend

that all agreed merited the name, Isuan; that kept true to the meaning: "The Spirit of Joy, of Health." In Manila it won instant favor. Its fame spread fast along the China Coast, to connoisseurs in far flung ports all over the Orient.

Now, Isuan Dry is here! It is imported for you, bottled and foiled, from the Philippines. A ginger ale that tastes of limes, ripe limes, Of fresh bland

ginger root. That brings you the health of those sparkling Isuan waters that boil up hot from the bubbling springs in the volcanic rocks of Maquiling Mountain.

How you will enjoy this most unusual ginger ale! How you will welcome its tangy flavors of fresh limes and fresh ginger—new to you, probably, in a drink! And you will bless its remarkable faculty of making your tomorrow a whole day. The "Spirit of Joy, of Health" is in it.

You would try it! Just say "E-SWAN" to your favorite waiter tonight—or to your grocer. All worth while places carry Isuan—they have to! The Isuan Corporation,

PLAN ATTACKEDPosition of House Chairman  
Called ExtremeProposal Virtually Would  
End Mexican EntryPro-Canadian Discrimination  
Held DangerousRADIO NETWORK  
ISSUE UNSOLVEDChain Broadcasting Hangs in  
BalanceBoard Seeks to Overcome  
DuplicationsProtection Studied for  
Rural Listeners

WASHINGTON, Sept. 4. (Exclusive)—A position on curtailment of Mexican immigration even more severe than that represented in the Box bill has been assumed by Representative Johnson of Washington, chairman of the House Immigration Committee, according to those who have expressed views on Representative Johnson's speech at Tenino, Wash., yesterday. He stated he will sponsor an amendment to the Immigration Act of 1924 under which immigration from Mexico and other Central and South American countries may not exceed the immigration from the United States to those countries.

Adoption of such an amendment would practically wipe out legal entries from Mexico and deprive farm interests in California and the southwest of the supply of Mexican harvest labor upon which they are dependent.

**COMPARATIVE FIGURES**  
The number of citizens of the United States emigrating to Mexico last year was 3907; in 1926 it was 2997 and in 1925, 2954. Under the Johnson proposal one Mexican would be allowed to enter this country for every American emigrating to Mexico. Even the Box Bill, which was defeated at the last session of Congress after a bitter fight in committee, would have permitted entry of upwards of 7000 Mexicans each year. It would place the country below the Rio Grande under the 2 per cent quota act, now applying only to European countries.

William E. Hull, United States Commissioner of Immigration, declined to discuss the Johnson proposal further than to admit that it virtually would eliminate immigration from Mexico. Statisticians in his office pointed out the difficulties of administering a law such as that advocated by Chairman Johnson. These difficulties, they said, would arise from attempts accurately to classify immigrants crossing the Mexican border into permanent, temporary or other divisions and to work out a system that would be fair and equitable. They foresaw "almost endless confusion" if Congress should pass such an amendment.

**WASHINGTON SURPRISED**  
The stand taken by Representative Johnson came as a surprise here and caused a considerable stir in political quarters and among the representatives of interests which are opposing immediately drastic curtailment of Mexican immigration, because of the economic losses that would follow in a vast area of this country where valuable land development has been based largely upon confidence in a continued supply of seasonal labor from Mexico.

During hearings before his committee on the Mexican immigration question last winter, Johnson, although leaning toward restriction at all times, declared his determination to avoid drastic action that would carry financial injury to large employers of Mexican labor in the United States.

**APPLIES TO CANADA**  
In his speech Representative Johnson said he would also offer amendments for regulating Canadian immigration on the same plan as now used by Canada with regard to immigration from the United States. This plan rejects aliens when not needed for work.

Thus the chairman of the House committee came out flatly for discrimination in immigration as between Canada and the nations of Central and South America, a possibility which has been jealously and keenly watched by all the countries below the Rio Grande and which on more than one occasion in the past has threatened serious international ill feeling. It is recalled that hearings on Mexican immigration were delayed and almost halted entirely last winter upon representations of the State Department that discussion of the subject in Congress at the time would seriously imperil the program of the Havana goodwill congress.

**HEARINGS EXPECTED**  
Hearings on the Mexican immigration question also embracing the future policy of the government toward all the other countries of the Western Hemisphere are expected to be resumed soon after Congress reassembles in December although it is not anticipated there will be important developments until after the convening of a possible special session of Congress March 5. Meanwhile it is expected that organizations from California to Texas and elsewhere fighting the restriction move, are attempting to agree upon a compromise which would avoid precipitate action by Congress. It is thought possible they will advocate that the influx of Mexican laborers be placed upon a seasonal basis, legally, as it already is, actually.

**CRIME AND CORRUPT POLITICS**  
An effort to punish a notorious thug for carrying a concealed weapon met a remarkable obstruction recently when the individual produced an identification card proving that he is a member of the State highway police says the Chicago Tribune. This membership stated him to carry a deadly weapon. The highway police administration now asserts that his membership lapsed last year, but the fact remains that he was a member. The man is the business agent of a union of malodorous refuse of the terrorist variety. His appointment to the highway police has no justification whatever and is a striking illustration of the workings of the alliance of corrupt politics and criminal violence.

Meanwhile an individual arrested as a moron and alleged to be a grafter and fixer has produced two stars, which he expected would make him immune from prosecution. One of these emblems of authority indicated that he is on the city prosecutor's pay roll.

The public will want to know who put these men on the State and city pay rolls and how many other undesirable are carrying membership cards to protect them from the law and give them the authority to carry the deadly tools of their trade.

BY MARTIN CODEL  
(Copyright, 1928, by the North American Newspaper Alliance)

WASHINGTON, Sept. 4. (Exclusive)—The fate of chain broadcasting still hangs in the balance as the Federal Radio Commission puts the finishing touches to its reallocation plan. The fact that a particular station is a member of a network will not militate against it in obtaining a favorable wave length reassignment, but the regulation of chain broadcasting is regarded as a necessity.

In a statement today in which he takes his turn at commending the reallocation project, Commissioner La Fount declares that the effects of chain broadcasting were carefully considered in the task of assigning stations to particular channels under the newly adopted reallocation. He promises that chain programs will be regulated in the near future.

Just what form this regulation will take is problematical. The commission is faced with the desirability of minimizing chain broadcasting on the forty high-power channels so that there will be no overlapping of identical programs in the same area. At the same time, it must make assignments in such manner as to enable rural and remote listeners, who must depend on superpowered broadcasts to get the benefit of the splendid network offerings.

For example, if two near-by stations propose to offer the same chain programs during the same hours, they will be restricted by regulation. The economical utilization of the precious wave lengths makes mandatory an arrangement whereby chain offerings within a given listening radius shall not be duplicated by stations on the best-wave channels.

The basis of the reallocation must not only be the prevention of interference between stations, but the avoidance of duplicated programs on many different points of the dial. That was one of the chief outcries at the Congressional hearings on radio last winter.

The duplication problem is most acute on the high-power channels, which are being allotted eight to a zone. The purpose of high-power broadcasting will be thwarted if more than one superpower station in States like New York or California, which are entitled to full-time on three high-power channels and fractional time on another, offers the same network program at the same time.

The problem with the regional stations which are spaced 1000 to 1500 miles apart, is to keep them from duplicating the superpower station chain programs. Among themselves, they should cause little trouble in duplication.

The expansion of chain broadcasting is a mark of its importance to radio. Only this week the Columbia system added WICC, Bridgeport, Ct., and WHK, Cleveland, to its network along with the long-scheduled tie-up of WABC, New York City, as its "key" station on Sundays, Tuesdays and Thursdays. Station WOR, Newark, will continue as "key" the other days of the week.

The plan La Fount points out has the merit of providing satisfactory transmission of the programs presented by the larger stations in the large cities where the greatest abundance of talent is available.

Small town and farm listeners are entitled to as much consideration as city folks, he declares, in referring to the wider dissemination of the higher grade programs that will be made possible through the clearing of forty channels for superpower broadcasting.

Commissioner La Fount candidly admits that the project is revolutionary. "Some have suggested," he states, "that the improvement sought under the plan should be undertaken in progressive steps. I prefer the plan adopted by the commission of making all necessary changes at one time and promptly."

"Speaking now as a business man, I am convinced that the complete adjustment of all stations will bring a feeling of permanency and stability not heretofore experienced."

The new plan and allocation will not produce perfection but I most sincerely believe the results will be all that is possible, considering the number of stations necessary to accommodate their location, the requirements of the law and the limited number of channels available."

**GRAIN MEN TO MEET IN CORCORAN**  
Representatives of All Branches Will Join in Convention on 15th  
CORCORAN, Sept. 4.—The program is practically complete for the annual San Joaquin Valley Grain Growers' convention to be held in American Legion Hall here Saturday, the 15th inst. The convention is to embrace not only grain growers, but those engaged in the handling of grain, its transportation, storage, selling and milling.

An address of welcome is to be given by Roy M. Pilcher of the local committee of arrangements at 10:30 a.m. This is to be followed by a report by Farm Adviser Wallace Sullivan of Kings County on the varieties of wheat and barley best suited to the Lake Tulare district as demonstrated by tests. Sullivan will also give a detailed report on the experimental plots cultivated on El Rico ranch in connection with the agricultural extension department of the University of California. A general discussion on the subjects will follow.

At 10:30 a.m. cultural and fertility subjects are to be taken up in a discussion led by B. A. Madison, chief of the division of economy of the University of California. J. W. Culbertson of this city will report on plowing under of straw and K. S. Battelle, a lake farmer, on green manure crops.

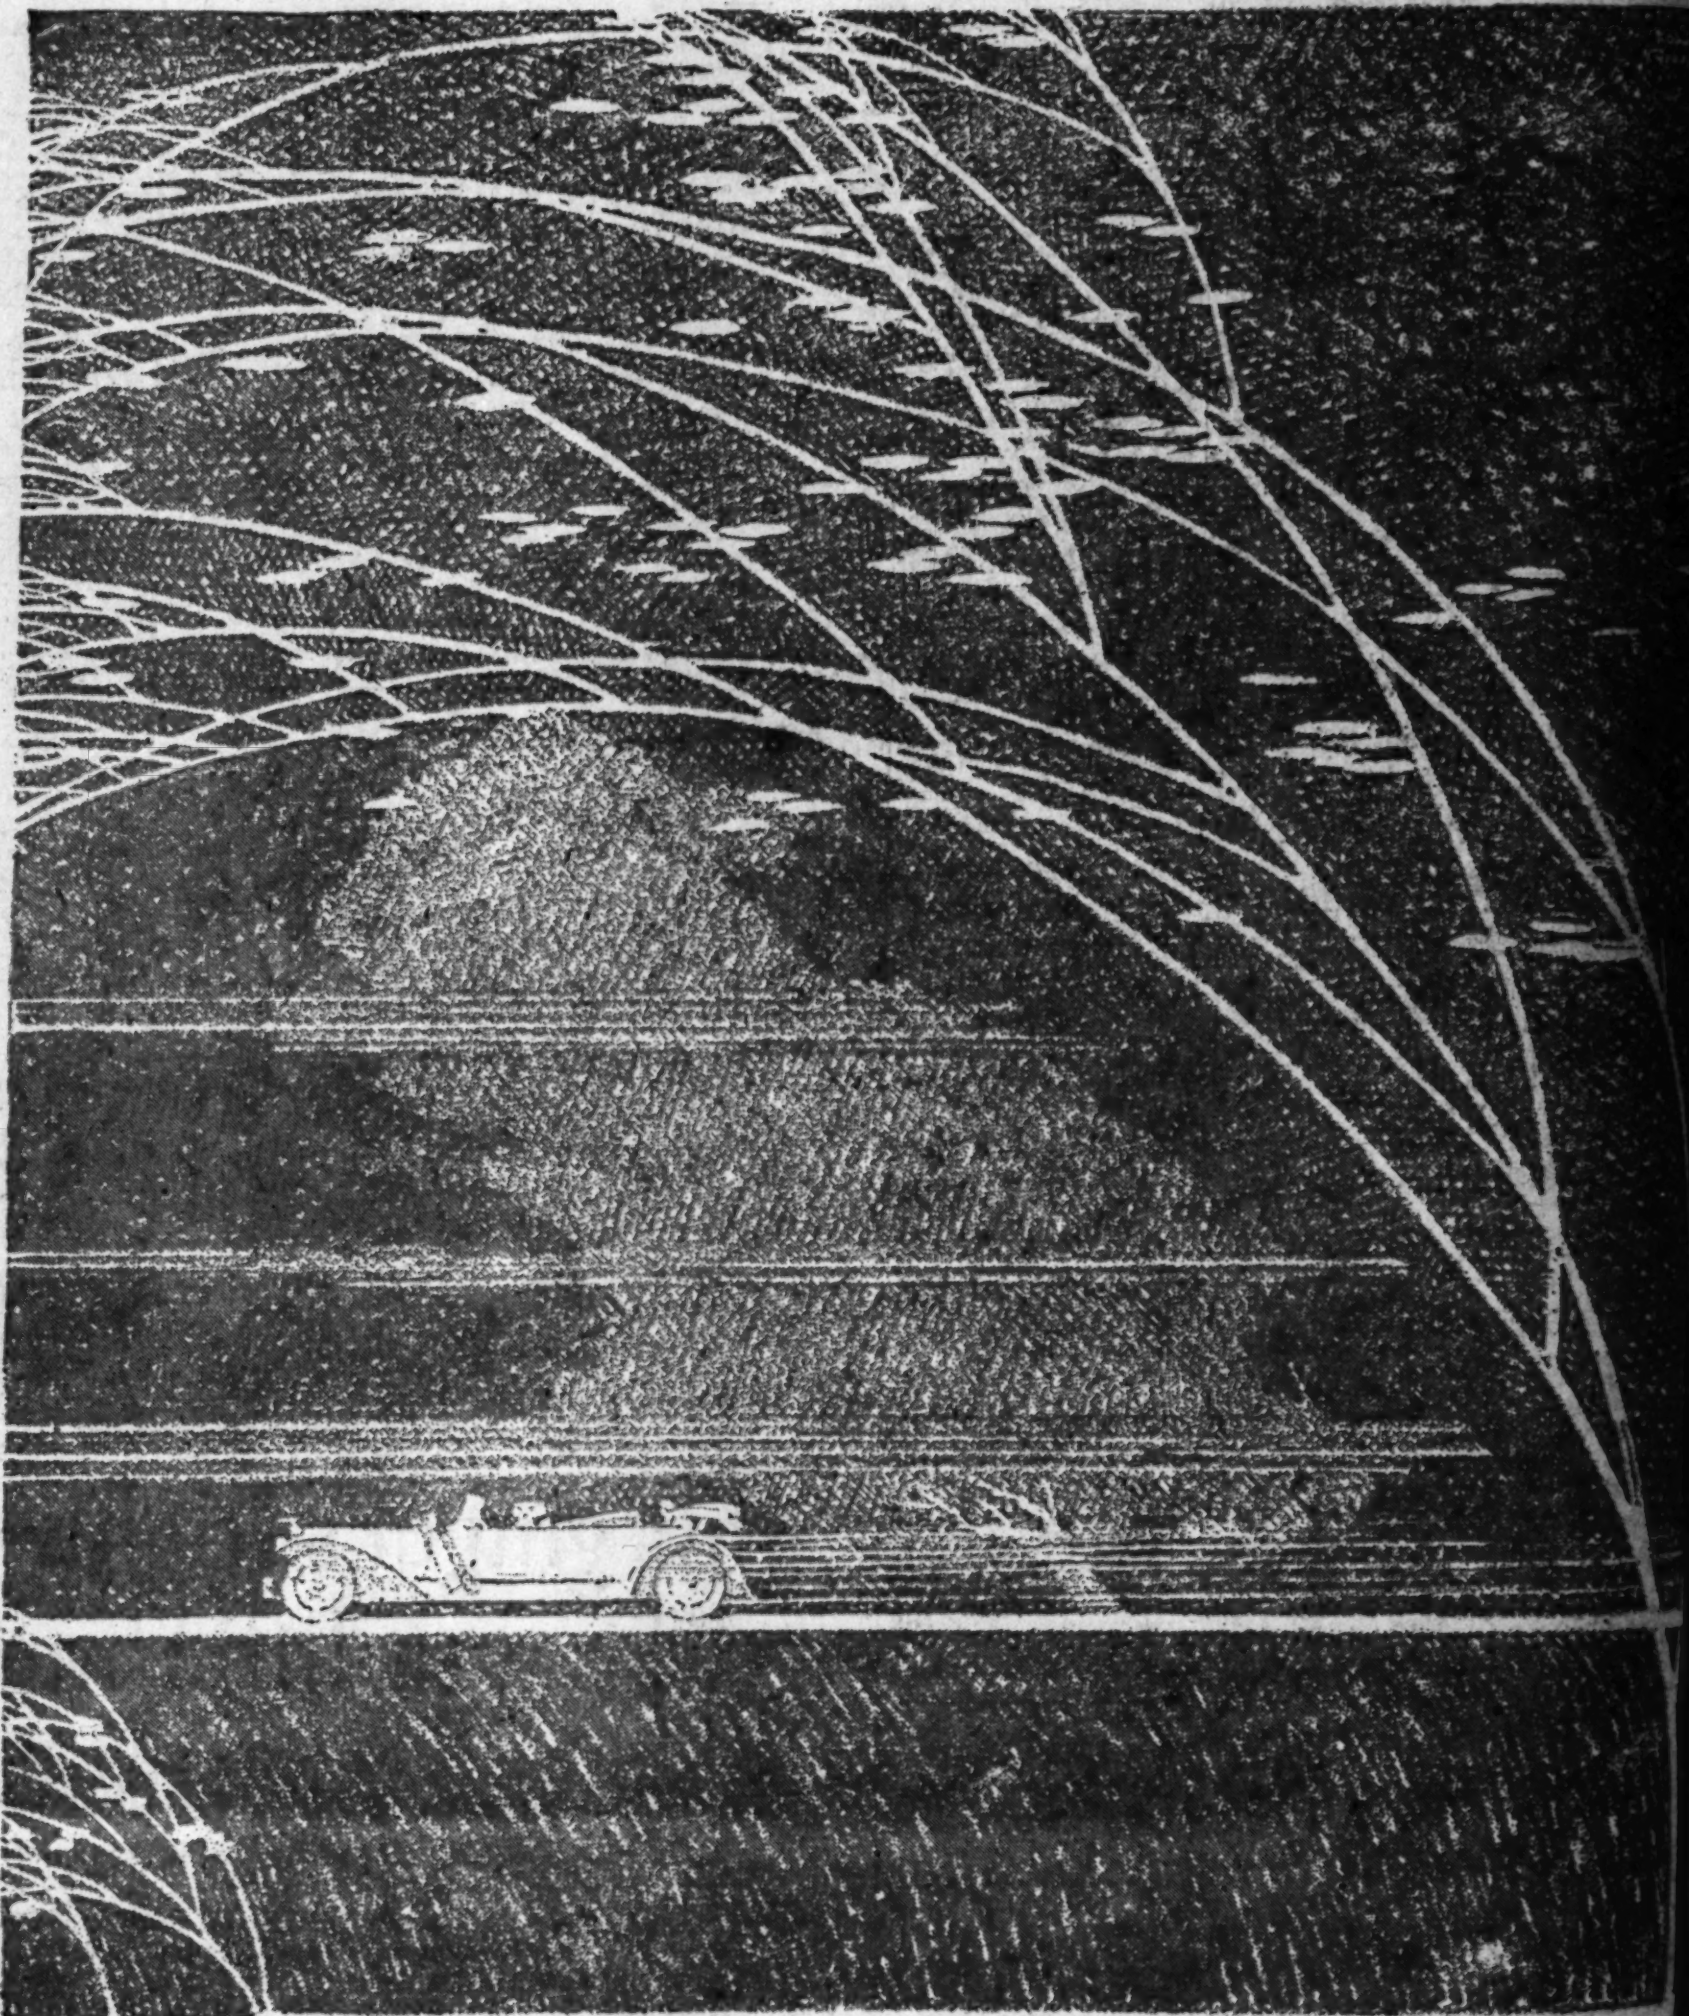

Work of the State Department of Agriculture "is to be the topic of a talk at 11:15 a.m. by L. M. Jeffers, chief of the division of field crops of that body, who is to deal particularly with its service to the grain industry.

At the noon hour luncheon is to be served by the women of the organization in the Thursday Club. During the luncheon there is to be an open forum and round-table discussion of the grain grower's problems, with questions and answers.

With the resumption of the session after noon there is to be a demonstration of Federal market grades of wheat by E. N. Bates, in charge of Pacific Coast grain investigations, United States Department of Agriculture.

## DRY RAIDERS SEIZE BEER

Hundreds of Gallons, Also Mash, Whisky and Wine Taken With Six Arrests in Kern County

BAKERSFIELD, Sept. 4.—Striking a severe blow to Kern county's beer supply, Federal agents, headed by Paul Shannon, resident agent, within the last seventy-two hours arrested six persons and confiscated 1325 bottles of beer, a quantity of mash and several gallons of whisky and wine, Shannon announced today.

Several of those arrested were taken before Robert Davis, justice of the peace in the Third Township, and pleaded guilty to charges of having liquor in their possession, while two were arraigned for Federal Court and held under \$2000 bonds each on charges of violation of the Volstead Act.

The raiders made their next strike in Taft, when they arrested Betty Gillespie, alias Marie Walters, and Amador Knapp and confiscated 1800

bottles of asserted home brew and twenty-four gallons of brew that had not yet been bottled. The woman and Knapp were held on Federal charges and arraigned before United States Commissioner Ray Burum, who set their bonds at \$3000 each.

While in the westside city the raiding party also arrested Ray Jackson Minter and confiscated twenty-five bottles of asserted beer. He was taken before Davis and fined \$100.

Federal agents during August set a record for raids in Kern county after a flight from Teague, Cal., and struck a series of hard blows at the illicit liquor industry, Shannon declared. The raids so far this month were aimed at the beer trade.

**SACK THEFTS CHARGED**  
CORCORAN, Sept. 4.—Ed Burkhardt has been brought back from Dinuba, on a charge of stealing a quantity of grain sacks from farmers in the lake region.

MEXICAN AVIATOR SACRIFICED  
PLANE TO SAVE SPECTATOR

SAN JOSE (Costa Rica) Sept. 4. (AP)—Col. Roberto Fierro, Mexican aviator, today deliberately sacrificed his beloved plane, the Baja California, to prevent injury to enthusiastic welcomers.

Sweeping down from the skies after a flight from Tegucigalpa, Honduras, the aviator found himself confronted with the situation which has seriously embarrassed other good-will flyers. The hundreds of persons on the field rushed toward the whirling propeller of the plane as it taxied down the field.

Fierro swung the plane in a quick turn to avoid cutting them down, but in so doing the left wheel was broken and the plane which has carried him to six dif-

FLEISCH... for H

# "World's Worst Ailment" yields to yeast

GEHEIMRAT PROF. DR. FRIEDRICH KRAUS, the "father of modern German medicine," Professor Emeritus of the Medical School of the University of Berlin. He is acknowledged throughout the world as one of the greatest living authorities on intestinal and digestive diseases. For a quarter of a century his lectures at the great Charité Hospital, Germany's leading medical clinic, attracted physicians from every country in the world and won for him the name, "teacher of half the doctors of Europe." His title, "Geheimrat," is the highest the German State can bestow upon a professional man.

Read the article in the Los Angeles Times about Geheimrat Dr. Friedrich Kraus

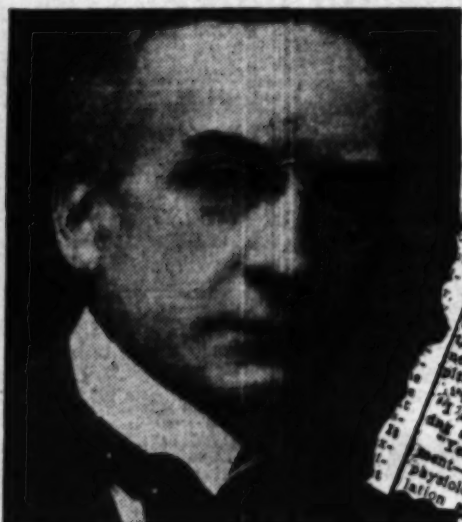

"Dr. Kraus has always been especially interested in the phenomena of digestion and in intestinal disorders. Dr. Kraus says he has seen yeast used for years as a prescription for intestinal cleansing to eliminate harmful bacteria and waste products."

In another interview Dr. Kraus also said of yeast: "As much as ten years ago we began here in Germany to give yeast. Most frequently it is used in certain diseases of the skin (boils, acne)."

"Usually one prescribes . . . one to three portions daily with the chief meals. Very often furunculosis (boils), especially of the face, is so trying and stubborn that I employ yeast combined with other treatments."

"Yeast is considered to contain vitamins and other elements necessary to health and growth."

Dr. Leonard Williams gives statement in the Pittsburgh Sun-Telegraph

DR. LEONARD L. B. WILLIAMS of London, is a Fellow of the Royal Society of Medicine. Youngest son of the late David Williams of Ddraeth Castle, Wales, he was educated in England, Scotland, France and Germany. He is an editor and well-known author of health books, including "Middle Age and Old Age" and "Science and Art of Living." Dr. Williams is physician at the Princess Hospital for Soldiers.

"Dr. Williams is famous in England as the originator of the 'annual overhaul' or yearly physical test for life insurance. 'In examining candidates for life insurance,' he declared in an interview here (London), 'I frequently see people who, though they claim to be well, are nevertheless much below concert pitch. They are not ill, but they are ill.'"

"For such people," he continued, "I should recommend less feasting and more yeasting!"

"Yeast is more than a medicament—it rouses the system to full physiological efficiency, of assimilation and excretion. If it can cure successive crops of boils as I have known it to do, it must possess a power of physical purification superior to all the purgatives in the pharmacopoeia."

Read Dr. Victor Pauchet's interview in the New York American

"Dr. Pauchet names the three scourges of humanity as alcoholism, social disease and intestinal stagnation. It is for the last that he recommends yeast as a remedy. He says:

"The general treatment for this world-prevalent ailment up until now has been with medications which, unfortunately, have ended, as a rule, in irritation of the intestine and poisoning of the entire system."

"... yeast . . . in addition is food which is rich in Vitamin B and increases vitality. It is thus a boon to the health of humanity."

DR. VICTOR PAUCHET of Paris, Surgeon of the Hospital of St. Michel and former professor of the School of Medicine at Amiens, is one of the most prominent of French physicians. He is the author of numerous medical works including "Surgical Practice" and "Constipation." He is a Commander of the Legion of Honor and a recipient of the Croix de Guerre with Palm.

## Scores of Newspapers Reported these Important Interviews

THE interviews with these three distinguished health authorities were reported in scores of leading newspapers in the United States.

Their opinions summarize the view of leading medical men the world over. This view is: Health through natural corrective foods. One of the most important of these foods, many doctors agree, is fresh yeast.

Ninety per cent of human ills, doctors say, start in the intestinal tract. Fleischmann's Yeast, as fresh as any garden vegetable, keeps the intestinal tract active, clean and healthy.

It frees the body from poisons. Restores appetite and corrects digestion. Clears the complexion. Increases vitality and gives life back its joy.

In a recent survey in the United States half the doctors reporting said they prescribed yeast.

Start today. Eat 3 cakes of Fleischmann's Yeast daily, one before each meal or between meals. To get full benefit from yeast you must eat it regularly and over a sufficient period of time. At all grocers and many leading cafeterias, lunch counters and soda fountains.

### D'OLIER DEATH TANGLE GROWS

New York Killing Seems to be Linked to Craft

Woman Lure May Have Been Figure in Crime

New Details Uncovered in Investigation

NEW YORK, Sept. 4. (Exclusive) New developments, most of them tending strongly to substantiate the theory of murder and linking it to the \$18,000,000 Queens sewer-graft scandal, piled up today in the William D'Olier death mystery.

Strong probability that a woman may have been employed as a "lure" to aid in leading the victim to his death headed the list of developments.

It is established definitely that the wealthy D'Olier, found shot to death beside a lonely Maspeth highway early Sunday morning, last week when he visited the offices of the Sanitation Corporation, a manufacturing company he headed, here. This company is deeply involved in the sewer-graft investigation.

**ANOTHER NAME**  
Entering the building, D'Olier registered on the night custodian's chart as Gilbert C. Waldrop, his patent attorney and business partner, with whom he had luncheon on the same day at the Plaza Hotel, and who had become associated with him in a proposed \$100,000 highway-construction deal in Kentucky.

He is reported to have been accompanied on entering the building and reports being checked by the investigators have it that one of the members of his party was a woman. Vital importance of one point of this new angle in the death mystery was admitted tonight by Dist. Atty. Newcombe, in charge of the investigation. He admitted having the building custodian's chart in his possession and further that the signature wherein Waldrop's name was used appears to be in D'Olier's

### AUTOS REDUCE TRAM PROFITS

San Francisco City Trolley Line Has Slump During August, Report Shows

SAN FRANCISCO, Sept. 4. (Exclusive)—Increased use of automobiles during the past year has affected seriously the profits of the municipal railway system, according to the report of Supt. Boeken, for August.

The report filed today shows that receipts for August were \$277 a day less than for the same month last year. S. J. Hester and Commissioner Meyer of the Board of Public Works said the marked falling off in revenue is due to increased ownership and operation of motor vehicles by former passengers of the city lines.

\*\*\*\*\*  
handwriting. He refused to reveal other names appearing on it.

**PAPERS BOUGHT**  
The District Attorney declared he is "treating this case as a homicide until the police suicide theory is fully proved."

Search was renewed today for valuable and possibly incriminating documents dealing in detail with relations of his company with politicians, contractors and others concerning the company's installation of machinery in the \$1,000,000 Bergen Landing sewage disposal plant, which has been under fire as a leading item in the grand jury's sewer graft inquiry, which are said to have disappeared from D'Olier's pockets.

### TWO ARRAIGNED AS SHEEPMAN'S SLAYERS

MERCED, Sept. 4. (P)—Robert (Buck) De Luchi and Antonio Negro entered pleas of not guilty today when arraigned on charges of murdering Ralph Amabile, Los Banos sheepman, last July 24. Negro's trial was set for October 4 and De Luchi's for October 18. They were indicted recently by the grand jury.

### RAILWAY DEAL CONSUMMATED

Espee to be Sole Owner of Northwestern Pacific

Agreement to Buy Share of Santa Fe Signed

Line Has Failed to Earn Operating Profit

SAN FRANCISCO, Sept. 4. (Exclusive)—Final preliminary steps for complete control of the Northwestern Pacific Railroad by the Southern Pacific were taken today when sale agreements were forwarded to the Interstate Commerce Commission by which the Santa Fe agrees to relinquish its present one-half interest in the road for \$4,443,540. Hitherto, the Northwestern Pacific which operates north from San Francisco Bay, has been controlled jointly by the Southern Pacific and Santa Fe.

For several years the plan of joint ownership has been considered unsatisfactory to both parties, and conferences looking toward single ownership have been under way for some time.

Joint announcement of the mailing of the agreements was made by E. H. Maggard, president of the Northwestern Pacific, and William Sprule, president of the Southern Pacific. Maggard said no change will be made in the present management or personnel and the Northwestern Pacific will continue to operate as a separate company.

**NO PERSONNEL CHANGE**  
While Sprule declined to discuss the Southern Pacific's possible plans for extending the Northwestern Pacific to connect with the Southern Pacific's northern line, it is said in other quarters that no immediate extension is contemplated.

After the commission has passed upon the agreement of sale, which was signed in San Francisco by Vice-President A. H. Payson of the Santa Fe and Chief Counsel Guy V. Shoup of the Southern Pacific, the Southern Pacific will consider improvements and extensions of its new property, it was said.

**JUDGES PICKING PRIZE WINNERS**

Orange County Fair Displays Offer Perplexing Problems

Numerous Gorgeous Exhibits Promote Keen Rivalry

Attendance Reaches 15,000, Passing Last Year's Mark

(Full text of illustration on page 4, p. 11.)

SANTA ANA, Sept. 4.—Judges at the Orange County Fair tonight were compiling points on the various feature exhibits, with the expectation that the awards would be announced tomorrow. There is keen rivalry between Pomona, San Bernardino, Riverside, San Diego and Ventura counties in the main feature competition. Various farm-oriental exhibits, the La Habra, Orange and Garden Grove exhibits are outstanding, with one of them expected to place first place.

Attendance today was estimated at 15,000 people, considerably more than on the corresponding day last year.

On Thursday representatives of the boards of Supervisors of Los Angeles, Orange, Inland Empire, San Bernardino, Riverside, San Diego and Ventura counties will be present, President Harry Lake announced.

Big throngs have been attending the rodeo both afternoon and evening. Last night there were several near accidents, but the performers managed to escape without serious injuries.

On Thursday the first of the McGee horse shows will be given and one of the largest crowds of the entire fair is expected.

A large relief map of the Boulder Canyon dam, prepared by the Los Angeles Department of Power and Light, was given a place in the feature tent today.

**RODEO RIDER****WENT IN CONTEST**

SANTA ANA, Sept. 4.—Elmer Cox, 40 years of age, of this city, received injuries to his back in a fall from a horse at the County Fair rodeo yesterday and is in the County Hospital.

**Grand Stand for School Strikes Building Snag**

EL MONTE, Sept. 4.—Construction of the \$30,000 cement grandstand for the athletic field of the local Union High School has been delayed pending the settlement of a three-cornered controversy between the trustees of the high school, the City Council and the Union Planning Commission. Bids were called for last month, but when the City Fathers found out that the structure would project into the twenty-foot setback of El Monte Boulevard, the main highway to Baldwin Park and Covina, objection was made and all bids rejected.

The boulevard at this point is fifty feet wide with a twenty-foot setback, but the pavement is only thirty feet. The school board is confronted with the difficulty that if the grandstand should be set further into the athletic field it will necessitate the removal of the fast quarter-mile track which has been three years in the building. It is believed that a compromise may be reached whereby the grandstand pillars will be arched over the sidewalk giving a mission effect and leaving fifty-six feet for the roadway at a conference to be held this week between the City Council and the high school trustees.

**Pair Held for Starting Fire**

CHINO, Sept. 4.—O. Gonzales and F. Rodriguez, local farm workers, were held in County Jail today while investigation is being made of charges that they started a brush fire near East Highland. A fire station near the scene of the fire, reported the two men were intoxicated, that they left their automobile and started the fire. Reuss held them until Constable Gus Garner could be summoned to place them under arrest. District Attorney George H. Johnson announced driving-while-drunk charges may be placed against Rodriguez, driver of the automobile.

**ORANGE COUNTY HAS MARRIAGE INCREASE**

SANTA ANA, Sept. 4.—The volume of marriage licenses issued in Orange county during August considerably exceeded the total for August, 1927, the first month under the new marriage law. County Clerk J. M. Black announced today. The total for last month was 319, as compared to 234 for August, 1927. August this year exceeded July, which had 323 licenses.

**ROAD ROUTE DEEDED**

GLENDALE, Sept. 4.—The final important barrier to the extension of Glen Oaks Boulevard through to Brand Boulevard was removed today. The City Council was informed by John F. Johnson, City Engineer, that the right of way for the boulevard had been deeded to the city by the Pelanconix tract owners and the Pacific Electric Railway Company.

POMEROY MADE SECRETARY SOUTH GATE, Sept. 4.—Harold Pomerooy has been selected as secretary of the Chamber of Commerce here and will work under the direction of Mayor Andrew J. Schoby, who has been chosen as executive vice-president of the organization.

**YOUNG WIFE TO PURSUE CAREER**

Stella Seager

PASADENA, Sept. 4.—News that a Pasadena girl is rapidly approaching stardom in New York was revealed here today, with reports that Stella Seager of this city has been signed by T. P. McAvoy for his latest production, "The American Revue," said to be one of the smartest of the new Broadway musical shows.

To attend the opening, her husband of a few months, Mitchell Leisen, is now en route to New York. When Leisen and Miss Seager were married a short time ago it was agreed each should go on with his and her career. This understanding reaches its fulfillment with the signing of Miss Seager for the revue.

Leisen, who has been associated with C. B. DeMille as art director for eight years, is making his trip serve a two-fold purpose, in that receiving bids and on the picture he plans to direct for that distributing company prior to his joining De Mille in the latter's new affiliation with Metro-Goldwyn-Mayer.

**DRIVER'S CARD DOESN'T FIT**

Truck Driver Says He Sent "His Gal" Down to Get License and Description on it of Her

SANTA ANA, Sept. 4.—Dock McGill, negro truck driver of Los Angeles, carried a chauffeur's license describing him as 5 feet 8 inches tall and weighing 140 pounds. State Traffic Officer F. O. Yoder was unable to reconcile this description with McGill's 6 feet and 8 inches of height and 210 pounds of bone and muscle when he saw the colored man with a truck and trailer loaded with nails, parked on East Seventeenth street here.

Yoder called the truck driver down from his seat to take him to task for violating the parking regulations. He was amazed when McGill unwound his entire length. He was still more amazed when he saw the description on the chauffeur's license.

"How do you figure that?" Yoder asked. "Well, if yuh all wants to know, I just did it for yuh. I took yuh and got that license, so I sent my gal down after it. They put her description on it," said Dock.

The case will appear before Justice K. E. Morrison, the 7th inst. on a charge of having a fictitious license.

Being an occupant of a friend's automobile when representatives of a finance company came to repossess it cost Harold Craft, 35 years of age, of 2019 West Twenty-third place, three broken ribs and possible internal injuries yesterday.

Craft told Detective Lieutenant Blake, at the Georgia-street Receiving Hospital, that he was sitting in the car owned by H. H. Harkin, 417 South Rampart street, waiting for the latter to finish loading the car with outfitting equipment preparatory to a trip to the beach for a month's vacation. While Harkin was in the house, Craft says, two men representing a local finance company came up and asked they were going to repossess the car. Craft protested on the ground that he knew his friend's account was not due until the next day. The men, one of whom was a huge individual, threw him forcibly out of the car, he says.

The two men drove away with the machine without waiting to learn the outcome of Craft's injuries, he asserts, while Harkin ran to the aid of his friend. In the meantime, Harkin was taken to the hospital, where he is now recovering from his wounds. Harkin was his wife's purse and other personal property. Craft was treated by Police Surgeon Jacob.

**BARRY GETS COURT WRIT FOR TAXES**

Former Ventura Assessor Wins \$57,792 Decision on Disputed Fee Collection

VENTURA, Sept. 4.—Jasper Barry's title to the \$57,792.90 which he claimed as his fee on unsecured personal property taxes in this county, was quieted today by the Superior Court by Judge F. A. Treat, of Monterey county, when he handed down a judgment in Barry's favor.

The question as to whether the taxes were derived from real property or unsecured personal property and the matter of the oath of the assessor taken by Barry are still unsettled by the courts. These questions will be threshed out later in the State Supreme Court.

The case originated when the county filed suit against Barry for retaining the money. The District Court of Appeal upheld Barry's contention that the money was due him after Barry had placed these collections in the Home Savings bank to take care of the money. He was settled. The county then filed a restraining order preventing him from withdrawing the money from the bank.

The former assessor followed the county's action by filing a quiet title action against the county and the bank, and it was in the hearing of the case today that Judge Treat awarded Barry judgment and held that he is entitled to withdraw the funds as his own.

'Dead Man' in Call on Coroner for Lost Papers

VENTURA, Sept. 4.—Coroner Readon has received a call from a "dead man." The latter is David A. Duckert, formerly of Cleveland, O., reported as a victim of the St. Francis dam disaster, and now a resident of Santa Paula.

After the flood insurance papers were found and brought to the coroner's office, the papers were found to be in the name of David A. Duckert, and now a resident of Santa Paula.

Murray and Bolling were held from Monday morning until 4 p.m. at the local jail, when they were released. Attached to the court record of the case was a business card of Murray's bearing the title of "Chief Deputy District Attorney, Los Angeles county." Murray was charged specifically with being intoxicated in a public place in the city of Santa Monica.

BROAD ORDER GIVEN

Wrighty Wants Catalina Bird Haven Made Finest in World

AVAILON (Catalina Island) Sept. 4.—Determined to make his island bird farm the finest in the country, William Wrighty, Jr., who departed yesterday for Catalina, is making this the biggest thing going.

Supt. T. H. Lewis was given leave of absence to make a tour inspection of the bird farm, and to collect in New York to obtain rare specimens of bird life for the aviary. The canyon that now is a desert, last March was a cactus-covered wilderness.

BONDS FORFEITED BY FOUR ON DRY CHARGES

VENTURA, Sept. 4.—Judge Edgar Henderson ordered the bond for \$12,000 forfeited and bench warrants issued for Arthur Hayes, Jeanette Mowery, Helen Hayes and George Olson when the quartet failed to appear for trial in court this morning to plead to the charge of possession of a still.

The four were taken by the Sheriff's office in a raid in a canyon near Piru where they are alleged to have been operating a still under the disguise of an oil well. Large oil drums were used to hold the mash, according to the officers.

GIRL RELEASED ON HABEAS CORPUS WRIT

SANTA ANA, Sept. 4.—Rosa Martinez, Los Angeles Mexican girl, who was arrested with James Flores and H. Primero at San Clemente several weeks ago, was released today by Superior Judge James L. Allen at a hearing upon a writ of habeas corpus.

The proceedings showed that the proceedings of City Recorder Nathan, at San Clemente, had been irregular when the girl was sentenced on a liquor charge. She had been sentenced without being in court, and no complaint had been issued.

Flores obtained his release a few days ago in a similar way, but was turned over to Los Angeles officers, being wanted there for stealing an automobile. Primero has not made an effort to obtain his release.

LEGION PLANS CELEBRATION

REDLANDS, Sept. 4.—The Legion drum and bugle corps here which took second place in the contest in Long Beach Sunday, is to be honored by the local Legion with a big celebration at their monthly meeting on Thursday. Ten corps first prize. Maywood took third place. Santa Barbara fourth and Los Angeles was given fifth place.

NEW PLANNER SELECTED

GLENDALE, Sept. 4.—Resignation of W. L. Trullis as a member of the City Council here today was received by the City Council here today. It was accepted and Frank H. Olmstead, president of the Los Angeles County Engineers' Association, and a resident of this city for many years, was appointed to fill the vacancy.

BOY SWALLOWS PIN

SANTA ANA, Sept. 4.—Lester Cox, 12 years of age, of the County Juvenile Home, swallowed a pin yesterday and is now in the County Hospital for treatment. His condition appeared satisfactory today. It was reported.

HOSPITAL SCHOOL OPENS

Navy Starts First Institution of Instruction for Corps Men at San Diego

SAN DIEGO, Sept. 4.—With Capt. Raymond Spear commanding, the Navy's first school for hospital corps men, opened at the naval hospital today. The school formerly occupied temporary quarters at Mare Island and was moved here with 150 to 200 students attending. They will be trained here for higher ratings. Capt. Spear said, and will have the opportunity of eventually receiving the warrant rating of chief pharmacist. A post-graduate course also is planned for the senior men.

All schools of this sort have heretofore occupied merely temporary quarters. Capt. Spear stated, and this is the first effort made by the Navy to establish a permanent training school for hospital corps men.

**FIGHT LOOMS FOR BABY BOY AS MOTHER HITS ADOPTION**

RIVERSIDE, Sept. 4.—With an eight-month-old baby boy as its goal, a determined legal contest is to be waged in Superior Court here. It became known today with the filing of papers by Attorney A. H. Winder. The plaintiff is Jeanette Lyberger of this city, mother of little Cecil Woodhouse Lyberger. She seeks to gain possession of the infant, who was adopted a few days after his birth by David and Mrs. R. A. Sprague of Hemet.

The Spragues are said to have become deeply attached to the child, and are preparing to resist the mother's efforts to take the baby away from them.

Although the mother signed a waiver to her rights to the child following his birth in the Community Hospital here, the lawyer for the father and the mother is legally her. Affidavits assert that the mother was ill and distressed by the death of Cecil's twin sister and thus not in a proper state of mind to sign away her rights to the boy.

Furthermore, it is charged, the law requires that the parent of a child to be adopted be in court at the time of the proceedings for examination by the magistrate. This was not done in the Sprague adoption proceedings, it is asserted.

**CRASH VICTIMS INCREASE**

Mexican Dies in Hospital, Making Three Dead and Thirty-eight Hurt in Orange County Week-end

SANTA ANA, Sept. 4.—Labrada Rodriguez, Long Beach Mexican, thirtieth victim of traffic accidents in Orange county this year, died at the County Hospital today as the result of injuries received in a collision west of Westminster yesterday.

Seventeen other persons were reported injured, making a total of three dead and thirty-eight injured as the total for the Labor Day week-end holiday traffic.

Coroner Brown had not finished holding the inquest over Mrs. E. E. Simmons, after her daughter, Mrs. Hazel Huff of San Diego, who were killed at Newport Beach early Sunday, until he was called on to investigate the death of Rodriguez, taken by the courts. These questions will be threshed out later in the State Supreme Court.

The former assessor followed the county's action by filing a quiet title action against the county and the bank, and it was in the hearing of the case today that Judge Treat awarded Barry judgment and held that he is entitled to withdraw the funds as his own.

'Dead Man' in Call on Coroner for Lost Papers

VENTURA, Sept. 4.—Coroner Readon has received a call from a "dead man." The latter is David A. Duckert, formerly of Cleveland, O., reported as a victim of the St. Francis dam disaster, and now a resident of Santa Paula.

After the flood insurance papers were found and brought to the coroner's office, the papers were found to be in the name of David A. Duckert, and now a resident of Santa Paula.

Murray and Bolling were held from Monday morning until 4 p.m. at the local jail, when they were released. Attached to the court record of the case was a business card of Murray's bearing the title of "Chief Deputy District Attorney, Los Angeles county." Murray was charged specifically with being intoxicated in a public place in the city of Santa Monica.

BROAD ORDER GIVEN

Wrighty Wants Catalina Bird Haven Made Finest in World

AVAILON (Catalina Island) Sept. 4.—Determined to make his island bird farm the finest in the country, William Wrighty, Jr., who departed yesterday for Catalina, is making this the biggest thing going.

Supt. T. H. Lewis was given leave of absence to make a tour inspection of the bird farm, and to collect in New York to obtain rare specimens of bird life for the aviary. The canyon that now is a desert, last March was a cactus-covered wilderness.

BONDS FORFEITED BY FOUR ON DRY CHARGES

VENTURA, Sept. 4.—Judge Edgar Henderson ordered the bond for \$12,000 forfeited and bench warrants issued for Arthur Hayes, Jeanette Mowery, Helen Hayes and George Olson when the quartet failed to appear for trial in court this morning to plead to the charge of possession of a still.

The four were taken by the Sheriff's office in a raid in a canyon near Piru where they are alleged to have been operating a still under the disguise of an oil well. Large oil drums were used to hold the mash, according to the officers.

GIRL RELEASED ON HABEAS CORPUS WRIT

SANTA ANA, Sept. 4.—Rosa Martinez, Los Angeles Mexican girl, who was arrested with James Flores and H. Primero at San Clemente several weeks ago, was released today by Superior Judge James L. Allen at a hearing upon a writ of habeas corpus.

The proceedings showed that the proceedings of City Recorder Nathan, at San Clemente, had been irregular when the girl was sentenced on a liquor charge. She had been sentenced without being in court, and no complaint had been issued.

Flores obtained his release a few days ago in a similar way, but was turned over to Los Angeles officers, being wanted there for stealing an automobile. Primero has not made an effort to obtain his release.

LEGION PLANS CELEBRATION

REDLANDS, Sept. 4.—The Legion drum and bugle corps here which took second place in the contest in Long Beach Sunday, is to be honored by the local Legion with a big celebration at their monthly meeting on Thursday. Ten corps first prize. Maywood took third place. Santa Barbara fourth and Los Angeles was given fifth place.

NEW PLANNER SELECTED

GLENDALE, Sept. 4.—Resignation of W. L. Trullis as a member of the City Council here today was received by the City Council here today. It was accepted and Frank H. Olmstead, president of the Los Angeles County Engineers' Association, and a resident of this city for many years, was appointed to fill the vacancy.

BOY SWALLOWS PIN

SANTA ANA, Sept. 4.—Lester Cox, 12 years of age, of the County Juvenile Home, swallowed a pin yesterday and is now in the County Hospital for treatment. His condition appeared satisfactory today. It was reported.

identicas fueran conducido ayer a la oficina del sargento de policia Barlow, portio de impresiones digitales del departamento de policia.

Se les tomaron a las mellizas, a petición de su mamá, las marcas de los dedos, y éstas suministran ahora, según dice Barlow, el medio inequívoco de saber quién es a quién es la otra. Si bien el pelo, los ojos, los dientes, los labios, las orejas, la estatura, el peso, y otros elementos de identificación son casi exactamente iguales en ambas, no ocurre lo mismo con las marcas digitales, según asegura Barlow, la mamá. Dándole una serie de impresiones para que las use en caso necesario,

### TRANS-PACIFIC MAIL

Following schedule of sailing is provided by the Los Angeles post-office:

September 7, from Los Angeles. Specially addressed mail for Panama and Canal Zone will be accepted for collection at the post-office. For connection at Seattle, mail must be received at the post-office by 10 a. m. of the day prior to date of sailing. No mail will be accepted for collection after 5 p. m. of the day prior to date of sailing.

To connect at San Pedro for the "trans-Pacific" mail, mail must be received at the post-office by 5:30 a. m. on Saturday.

To connect at San Francisco, mail must leave Los Angeles by 5:30 p. m. the day prior to date of sailing.

## WHITTIER BANK IN LOCAL CHAIN

First National Control Sold  
to Merchants

Thirty-seventh Link Added to  
Branch System

Resources Acquired Reported  
as \$5,600,000

Purchase of the First National Trust and Savings Bank of Whittier was announced yesterday by E. J. Nolan, president of the Merchants' National Trust and Savings Bank of Los Angeles. The addition of the Whittier bank gives the Merchants' system a total of thirty-seven banks and branch offices in Southern California.

Latest statements show the First National Trust and Savings Bank of Whittier has total deposits of approximately \$4,600,000; resources of \$5,700,000, and surplus and undivided profits of \$519,788. The bank is capitalized at \$250,000.

By acquiring this bank, Mr. Nolan said, the Merchants' National obtains entrance into the section now flourishing through the current oil developments at Santa Fe Springs. Whittier has considerably increased in activity since the campaign began for production from the deep sand, and the banks are among the first to show the salutary results.

Operations of the First National Trust and Savings of Whittier are continued under the present management. F. W. Hadley is president; A. C. Maple, executive vice-president; and chairman of the board; H. L. Perry, vice-president and cashier; and C. A. Carden, vice-president.

"This is the second step in the way of expansion the Merchants' National has taken in recent months. The last purchase was the deal by which the Merchants' acquired the First National of Los Angeles. Negotiations are under way. It is understood, for another independent bank to add to the Merchants' system."

Resides its branch office in Los Angeles, the Merchants' National operates in Glendale, San Bernardino, Redlands, Riverdale, Pasadena, Vernon, Huntington Park, Bell, Long Beach and Whittier.

Next week the head office of the bank will be moved to the newly enlarged quarters at Seventh and Spring streets.

## WATERLOO WINNER IN MISSISSIPPI LEAGUE

WATERLOO (Iowa) Sept. 4. (AP)—Waterloo won the championship of the Mississippi Valley League, which closed its 128-game season yesterday. The Waterloo club was twelve and one-half games in front of the second-place Moline steamers. Other clubs followed in order: Rock Island, Dubuque, Burlington, Marshalltown, Ottumwa and Cedar Rapids.

League officials said the season was the most successful in the league's seven years of existence, attendance figures showing a decline in nearly every city.

## BANCITALY HEAD BACK FROM TRIP

Gives Out Statement on  
Recent Fluctuations of  
Corporation's Stock

NEW YORK, Sept. 4. (AP)—A. P. Giannini, California financier, re-  
turning from Europe today, declined  
to discuss the recent wide fluctua-  
tions in the stock of the Bancitaly  
Corporation, of which he is president,  
except in a prepared state-  
ment.

The statement was virtually a rep-  
etition of a cablegram sent at the  
time of the stock's decline last June.  
He added that he has in mind  
"certain definite recommendations  
for the benefit of our stockholders  
which he would present to the board  
of directors."

Giannini, accompanied by his  
wife and daughter Claire, still was  
suffering from an attack of neu-  
ralgia which he contracted while  
abroad.

"I am ready to get back on the  
job," he said. "What I had planned  
as a summer vacation trip with my  
family turned out to be a stub-  
born fight with an attack of neu-  
ralgia. But I am fit to be back in  
the harness."

In his statement, Giannini said  
he had kept closely in touch with  
"events at home" and was not at  
all surprised at the midsummer  
stock slump. "The Bancitaly stock  
in one day dropped 67 points to  
\$123 and then rallied to \$147. That  
was in June. In April it had sold  
as high as \$160."

Holders of Bancitaly stock on  
margin, he said, had been warned  
in January by the company to "re-  
sist the temptation to sell." The  
company, he added, also did not recom-  
mend purchase at the then high  
prices.

"What happened during the sum-  
mer fully confirmed our advice," he  
continued, "and stockholders who  
heeded our warnings have not been  
hurt. Our institutions, themselves,  
were never in better condition than  
at present and earnings for the past  
half-year have been much better  
than at any time previous in our  
history."

## Broker House in Merger With Toole-Tietzen

Toole-Tietzen & Co., investment  
house and member of the Los An-  
geles Stock Exchange, has acquired  
the investment-bond business of R.  
P. Seely & Co., it was announced  
yesterday.

Roland P. Seely has been ap-  
pointed a vice-president of the  
Toole-Tietzen company. Mr. Seely  
was formerly manager of the Los  
Angeles office of Harris Trust  
and Savings Bank prior to estab-  
lishing R. P. Seely & Co.

Mr. Seely's experience in the in-  
vestment business began with the  
Harris Trust and Savings Bank at  
Chicago, has extended over a pe-  
riod of eleven years.

## Rice Growers Approve Plan

WILLOWS (Cal.) Sept. 4. (AP)—  
Rice growers in this district are  
believed to have accepted as a  
whole marketing plans recently  
submitted by E. L. Adams, president  
of the Rice Growers' Association of  
California. Adams planned to sta-  
bilize prices by disposing of sur-  
plus by exportation.

Rice harvesting will begin next  
week in some fields in Glenn and  
Colusa counties where the earlier  
varieties were planted. All of the  
1927 crop remaining in warehouses  
October 1, next, will be turned over  
to the association for disposition,  
it is expected here.

## SUGAR PRICE RAISED BY CZECHO-SLOVAKIA

PRAGUE, Sept. 4. (Exclusive)—  
A sensation has been caused by an-  
nouncement that the Sugar Asso-  
ciation has increased the price of  
sugar by 80 crowns per 100 kilos. It  
is believed this will lead to trouble  
with the workers. The action is  
said to be due to the effect of British  
duty on raw sugar.

## DIVIDEND OMITTED

ST. PAUL, Sept. 4. (Exclusive)—  
Directors of the Twin City Rapid  
Transit Company passed the reg-  
ular quarterly dividend of 1 per cent  
due at this time but declared the  
regular quarterly of 1 3/4 per cent  
on the preferred stock. Officials of  
the company stated that earnings  
did not warrant the payment.

## OLD FAVORITES REPLACED

Coast Traders Switch to New Group of Stocks;  
Lockheed Latest Sensation Here

BY EARLE E. CROWE

In the last several weeks speculation on the Pacific Coast has swung  
on to a new tangent. The old and tried favorites have gradually  
dropped back into a secondary position, and a new group of specialties  
has arisen to take their place. To a degree, this transition represents  
the entrance of speculation into a more reckless stage, but out of the  
new crop will undoubtedly emerge some stocks that will justify the en-  
thusiasm now shown.

Union Oil, for illustration, has lost  
its position, for the present, at least,  
as the leader of the oil group. Now,  
the speculators closely follow the  
fluctuations in Rio Grande as the  
key to the movement of the oil  
group, and public interest has ex-  
tended into all oil shares with a  
speculative tinge. Rio Grande still  
holds promise for a certain por-  
tion of the traders, and Gilmore,  
Republic Petroleum and others in  
the cheaper category have followed  
it.

**STANDARD GAS**  
The excitement is just as intense  
in the over-the-counter market. Sig-  
nal Oil and Gas, a company with a  
long operating history but little  
known to the stock market, has de-  
veloped almost overnight into a fa-  
vorite and has moved from around  
28 to 30 in about a month's time.  
The stock will be listed on the Los  
Angeles Stock Exchange this week.

Lockheed Aircraft is another of  
the newer stocks to capture interest  
at the expense of the old favorites.  
In a few short weeks this stock has  
turned into a speculative sensation,  
having risen from an opening price  
of 17 1/2 to a high yesterday of  
\$22. Besides having no known as-  
surance of the general public interest in air-  
plane securities, Lockheed is reflect-  
ing hopes for the success of its  
planes in the coming National Air  
Races. A good portion of the de-  
mand for the stock is coming from  
San Francisco.

Kaiser Radio also has the appeal  
of novelty, which seems to play such  
a large part in current speculation  
on the Coast. Kaiser has won  
considerable success with several of  
its radio and allied ventures, and  
the market is alert to any news  
along this line. Speculation in the  
last week has been predicated on  
unofficial reports of stock develop-  
ment to be announced soon.

**INDUSTRIAL WIN FAVOR**  
Byron Jackson Pump and Emco  
Derrick, two companies serving the  
oil equipment industry, are popular  
stocks in the industrial list, and  
electrical products, now known as  
Claude Neon, is still well thought of  
by the traders.

Virtually all of the foregoing  
stocks have climbed to popularity  
since the collapse of the bank stock  
market. The former favorites in  
this list have not as yet been able  
to regain their lost ground, and the  
newer speculation may little at-  
tention to the news and rumors affecting  
the banks. The Giannini shares,  
Los Angeles-First National, California  
Bank and the others have been  
relegated to the secondary position  
along with Union Oil, Edison,  
Standard Oil, Shell Union and the  
others that were once in the limelight.

Merchants' National, however, has  
shaken off its lethargy, and is ap-  
parently making a comeback. What  
interest again. What the reasons  
are has not yet been disclosed.

## Young Admitted to Local Mart

Members of the Los Angeles Stock  
Exchange have approved the appli-  
cation of John S. Young for a seat  
on the exchange. Norman B. Coar-  
son, secretary and manager, an-  
nounced yesterday. Mr. Young and  
Fred L. Clarke have organized an  
investment security house, to be  
known as Young-Clark & Co., and  
have taken over the stock broker-  
age business of the Buford Graves  
Company.

Mr. Young has been associated  
with Frick, Martin & Co. for many  
years, while Mr. Clarke was for-  
merly connected with California Se-  
curities Company. George A. Rath-  
burn, for many years general agent  
for the Equitable Life Assurance  
Company of New York for South-  
ern California, and Cecil Frankel,  
well known here, will be directors  
of Young-Clark & Co. Buford  
Graves is retiring from the broker-  
age field, but will maintain a com-  
mercial-paper business in adjoin-  
ing offices.

## COTTON MARKET

NEW YORK, Sept. 4. (AP)—The firm  
movement of cotton prices in the  
cotton belt over the past few days  
has been followed by a similar move-  
ment in the market here. Uncertainty  
as to the effect of the government  
policy of restricting cotton exports  
has been a factor in the market. The  
market has a good part of the  
advance during the day, but it is  
again in doubt whether it will hold  
until the afternoon, when active  
trading is expected to begin.

Thrifty People Show Their Appreciation of the Extra Dividend Souvenir Given During Our Birthday Party

Advertising Our Gladness  
By ELWOOD LLOYD

Our "birthday party" started yesterday morning. Our hands still tingle with the friendly pressure of hundreds of visiting friends who came to wish us well in the opening of our new offices at 412 West Sixth Street on Pershing Square.

Not only did friends come to bestow their greetings, but many came to take advantage of our "souvenir" and to make worthwhile investments in our certificates.

The very first purchaser bought thirty-five thousand dollars' worth of our investment certificates. This was mighty encouraging for the very first account opened in our Los Angeles office.

Not only did the size of the first purchase make us feel good, but the organization making the investment gave most wonderful proof as to the soundness of Bay Cities investment certificates—or to show how easy it is to own a home under our helpful loan plans.

Don't forget the location of the Bay Cities Guaranty Building-Loan Association. Our new Los Angeles office is at 412 West Sixth Street, on Pershing Square—ground floor of the Detweiler Building. The Santa Monica offices are at Santa Monica Boulevard and Third.

In either office you will find a cordial welcome and an opportunity to get started on the road to financial independence.

**THE INVESTOR**

(Copyright 1928 by New York Evening Post, Inc.)

**NEW YORK, Sept. 4.**—The final step in the Associated Gas and Electric Company program of re-constructing its finances will take the form of an issue of \$50,000,000 4 1/2 per cent consolidated refunding bonds, according to present plans. The time of the offering will depend on money-market conditions.

The company has been strengthening its financial structure for almost two years, reducing the ratio of funded debt to total assets, replacing high-coupon bonds with securities of lowest interest rates and substituting securities of the holding company for those of operating units wherever desirable.

That the policy of financing wholly through parent-company securities has been justified is proved, the management believes, in a substantial lowering of yield on the company's bonds in the last several years. This trend reflects, of course, an improvement in the company's credit as well as the general decline in interest rates.

**SUBSTITUTION NEXT STEP**

"The most obvious next step to consider," says the company's last annual report, "is the possibility of substituting for the present outstanding preferred shares securities carrying a lower charge against earnings. Stocks of this class are outstanding in several series.

"It now seems probable that, with the present credit of the company and, perhaps, by taking advantage of a slight further reduction in the cost of long-term capital, which appears ultimately in prospect, all these preferred stocks can be redeemed and the necessary refunding capital obtained by securities

**Associated Gas Utility Planning New Financing at Lower Interest Rate**

having no greater preference in their claim on earnings than the preferred stock now outstanding, but with a fixed charge of not much over 5 per cent on the money thus secured. If and when this is accomplished the resulting balance of earnings for the class A and common stocks will, of course, be considerably increased.

Earlier in the report plans for the \$50,000,000 bond issue are discussed "when the cost of money resumes its generally expected lower trend."

**MORE EVENLY BALANCED**

Completion of the rearrangement in sight, J. I. Manger, president, says, and when the final step has been taken, with perpetual debentures converted into stocks, the structure will be classified as follows:

(1) Junior stocks—Class A, B and common; (2) preferred stocks; (3) convertible 5 1/2 debentures, 1977; (4) consolidated and refunding bonds; (5) consolidated and refunding 4 1/2 debentures, 1988; (6) convertible 4 1/2 debentures, 1988; (7) Associated Electric Company 4 1/2 debentures, 1988; and (8) a few non-callable underlying issues which either mature or become callable in a comparatively few years.

**LOS ANGELES EXCHANGE**

Rio Grande Oil Continues to Lead Local Market Operations on Bullish Trading Session

Rio Grande Oil again featured an active session yesterday on resumption of the week's trading on the Los Angeles Stock Exchange. The stock opened high for the day at 7 1/2, up 1/2 point from Saturday's close and sold briskly throughout the entire session, dropping to a low of 6 1/2 and finishing at 7 1/2, up 1/2 point.

Bank of Italy and Bancitaly advanced substantially to lead the trading in bank shares.

Richfield was a strong spot of the market and advanced 1 1/2 to close at 40 5/8. Richfield warrants sold unchanged at 20. Oilmore Oil came into prominence yesterday and after touching a new record high at 12 1/2, finished at 11 3/4 for a net gain of 3 3/4 points. Republic Petroleum sold up 5 cents to 6 1/2. Standard of California closed at 1 1/2 point to 58 3/4. Union of California and Union Associates both closed unchanged at 50 and 50 1/2, respectively.

Sanitary Corporation sold in large volume and jumped 7 points to finish at 147, after touching a

**LOS ANGELES CURB**

Lockheed Aircraft, leading the trading volume, featured all other operations yesterday on the Los Angeles Curb Exchange. The stock opened at 84 and soared 1 1/2 points to mark a new record high price at 85 1/2. The close was at 86 after a transfer of more than 6000 shares.

This stock was listed on the curb early last month and had an opening price at 17 1/2. Speculative interest in the stock is said to have been stimulated by the approach of the national air races soon, in which there are several Lockheed planes entered.

Byron Jackson Pump sold off 3-4

**SAN FRANCISCO**

SAN FRANCISCO, Sept. 4. (AP)—Good rains in the Sierran region featured an otherwise active market on the San Francisco Stock Exchange today. Trading was moderately active. Opening up at 142 1/2, Bancitaly Corporation rose strongly to 147 1/2, slackening from there to a close at 146 1/2 for a 1/2-point gain. Bank of Italy from a start at 21 1/2, gained to 21 3/4 and ended at 21 3/4, a net of 1/2 point. American Cattle Raisers Association, under selling pressure, sold from 147 to 145 1/2, lower by 1 1/2.

In an irregular industrial list, Caterpillar Tractor sold off from a start at 21 1/2 to 20 1/2, ending at 20 1/2, a net of 1/2 point. The preferred issue opening at 8 1/2, closed at 8 1/2, a net of 1/2 point. Kaiser Steel closed at 102 1/2, a net of 1/2 point. Atlas Steel closed at 102 1/2, a net of 1/2 point. The Oilry issue contributed little gain. The "A" gained 1/2 to 45 1/2 and the "B" issue ended at 45 1/2, a net of 1/2 point. The "C" issue ended at 45 1/2, a net of 1/2 point. The "D" issue ended at 45 1/2, a net of 1/2 point. The "E" issue ended at 45 1/2, a net of 1/2 point. The "F" issue ended at 45 1/2, a net of 1/2 point. The "G" issue ended at 45 1/2, a net of 1/2 point. The "H" issue ended at 45 1/2, a net of 1/2 point. The "I" issue ended at 45 1/2, a net of 1/2 point. The "J" issue ended at 45 1/2, a net of 1/2 point. The "K" issue ended at 45 1/2, a net of 1/2 point. The "L" issue ended at 45 1/2, a net of 1/2 point. The "M" issue ended at 45 1/2, a net of 1/2 point. The "N" issue ended at 45 1/2, a net of 1/2 point. The "O" issue ended at 45 1/2, a net of 1/2 point. The "P" issue ended at 45 1/2, a net of 1/2 point. The "Q" issue ended at 45 1/2, a net of 1/2 point. The "R" issue ended at 45 1/2, a net of 1/2 point. The "S" issue ended at 45 1/2, a net of 1/2 point. The "T" issue ended at 45 1/2, a net of 1/2 point. The "U" issue ended at 45 1/2, a net of 1/2 point. The "V" issue ended at 45 1/2, a net of 1/2 point. The "W" issue ended at 45 1/2, a net of 1/2 point. The "X" issue ended at 45 1/2, a net of 1/2 point. The "Y" issue ended at 45 1/2, a net of 1/2 point. The "Z" issue ended at 45 1/2, a net of 1/2 point.

2500 Preferred Shares—2500 Common Shares

In Units, of one share of Preferred and one share of Common.

This stock is secured by the same high-class Municipal Improvement Bonds which the investor is glad to buy on a 6 1/2% basis with no participation in any of the profits.

**MANAGEMENT AND RECORD:** Royal Securities Company is today conducting a Bond business that was established in 1908, having the same management today as then.

During Twenty Years of highly successful operation we have been responsible for many of the miles of streets and boulevards now in use throughout the State of California.

**HISTORY:** Since 1908 we have specialized in the purchase and resale of Tax Exempt Municipal Improvement Bonds, issued by California Municipalities, which are in the nature of Tax Liens and rank next to Government Bonds.

Dealing in Municipal Improvement Bonds, we render a dual service, in furnishing capital for Public Improvements and in providing the public with sound investments.

**EARNINGS:** During the past Twenty Years earnings of the Royal Securities Corporation have averaged over 20 Per Cent Net Per Annum on invested capital—some years showing phenomenally larger earnings—going as high as

# STOCK MARKET IN BRISK RALLY

(Continued from Sixteenth Page)

Laidy advanced to a new high level and then fell back on rallying.

## MOTORS STRONG

Concurrent activity and strength of Stupp and Geo Motors, both of which established new high records, also was based on unconfirmed merger rumors. Chrysler, Packard and Graham-Paige also moved in a new high ground and General Motors closed 2 points higher at 30 1/4. Columbia Gas, with a 3-point gain at 12 1/2, was the leader in the public utility group.

American Lumber ran up 13 points to a new top at 135 and then eased to 133. Among the many other issues to reach new high ground were Continental Can, Union Carbide, Loewe-Diles Blauit, International Harvester, Coty, May Department Stores and Barnardall A. Such recent weakness as United States Steel common, American Can, Anaconda Copper, International Nickel and Woolworth were ranged behind minus signs at the close. Recent weakness of Manhattan Electrical Supply was explained today by the omission of the regular quarterly dividend.

Rails showed more uniform strength than the industrials, with rather substantial gains in such issues as Delaware and Hudson, Baltimore and Ohio, Colorado and Southern and Union Pacific.

Commodity markets were again mixed. Wheat dropped 1 to 1/2 cents a bushel but cotton closed slightly firmer. Quotations for futures were slightly higher and raw sugar futures a shade lower.

Reactionary tendencies predominated in the foreign exchange market, but most of the declines were nominal. Sterling cables ruled around \$4.85 1/4. Japanese yen broke 15 points to 45.50 cents.

**FREEDOM MENACED**

The producers, individually on their own, are maintaining that they are not, as is insinuated in an open letter where craftsmen are employed without discrimination as to whether the workers are members of a union. They are free workers, the Union says; on the other hand, say they, usually have run all principal open-shop craftsmen, either into the union or out of the job.

In any event, open-shop champions in Los Angeles are looking

at the situation especially the motion-picture industry is paid of pay roll is the largest in the city.

There is little doubt that the dealings of the producers with union has strengthened the position of union in the local industry and is slowly weakening the open-shop policy in the city's more local and minor industries.

It is this situation that has given rise to various studies by open-shop groups to determine what means are devised to prevent the production dealings from undermining the free industrial principles upon which the city has builded so far.

**S**ince the property and the land place helped to attract the producers to locate among their enterprises here. The city is jealous of its reputation as the industrial freedom. Many of the industries with have in the millions of dollars here, and are such considerable empires as to have a very great financial effect on the country's economy, because of the freedom of conditions here from union shop-expo expounds demand. Now to see this freedom men and eastern capitalists who have much of it has aroused the warriors of the open shop and the

Since 1922 when the unions organized such a vigorous campaign against the open shop in the building industry here have they planned and carried out a series of local and national strikes and moved with such rapidity that they have taken away from the local industrial liberty men are doing. In that respect, the fight was entirely successful. It is one the real seat of the trouble in New York, far from the excitement, and is being conducted much more stealthily than the more obvious one. And this community was so unprepared and alert to the menace of the Chamber of Commerce Division that it probably never found it necessary to

# Sweeney Denied New Trial and Sentenced to Prison

## APPEAL PLANS STILL UP IN AIR

Two to Twenty-four Years in Cell Ordered

Convicted Man Now Afraid to Repeat Story

Results Dreaded if He Goes Before Grand Jury

Denying the petition of R. E. Sweeney for a new trial, Judge Yankwich yesterday sentenced the former land-and-tax agent of the Southern California Gas Company, found guilty Saturday on ten counts of forgery and three of grand theft in connection with his manipulation of vouchers in the office of the gas company, to serve from two to twenty-four years in San Quentin.

The sentence of from one to four years was pronounced on each of the ten counts of forgery and one to ten years on each of the three counts of grand theft; the sentences in each case, however, are to run concurrently.

Following his sentence, Sweeney, who previously had indicated that he will be willing to go before the grand jury and tell all he knows of alleged bribery and corruption among city officials, expressed fear of the political power of the men who would be implicated by his testimony.

### WHAT HE FEARS

"I now have a chance of being released from prison after serving a minimum sentence," said Sweeney, "but if I go before the grand jury and tell what I know, I'm afraid these men will use their influence with the parole board to keep me behind the bars for the maximum time."

A stay of execution of the sentence was granted for a period of ten days on a motion of Joseph W. Ryan, defense attorney. Ryan set forth that the grapes on a vineyard owned by Sweeney in Kern county are being harvested and that it is necessary for him to get the return from the grapes in order to be in position to take care of some of his obligations.

A letter, purported to have been written by Charles S. Curtis to Judge Yankwich, in which the writer charged that the judge had been "bought off by the gas company" because of the instructions he gave the jury, was turned over in court by the judge to Dep. Dist. Atty. Dennison, who prosecuted the case. Dennison at once asked that a search warrant be issued for Curtis' arrest for contempt of court. While Judge Yankwich issued the warrant he said he will ask the appellate judge hear the case should Curtis be located by the officers.

### SENTENCE EXPLAINED

In pronouncing sentence, Judge Yankwich stated he had no other recommendation to make than that which may be inferred in his action in sentencing the defendant and allowing the sentences to run concurrently. He pointed out that the sum Sweeney admitted taking on the fictitious vouchers, namely, \$100,000, was greater than the amounts set forth in the various counts of the information, and that the defendant had charged the money had been used to bribe public officials with the consent and approval of the president of the company.

"The verdict of the jury indicates," he said, "that either they did not believe the defense, or, believing the defense, did not believe all of the money was used for the purpose set forth. Some of the jurors have expressed that opinion since their dismissal. The court feels in allowing the sentence to run concurrently that he has exercised all the leniency that the nature of the offense and the past record of the defendant warrant."

### JUDGE THANKED

At the close of the ordeal, Sweeney thanked the judge for his fairness during the trial. Ryan, whose motion for a new trial was denied, stated he has not determined to appeal the case.

Sweeney before he was returned to his cell in the County Jail stated that his family virtually is destitute and that all of the property he had purchased in the past few years has been seized, including a bank account of \$7000.

Sweeney was arrested May 23, last, following an investigation of his records by officials of the gas company. He was charged in the information filed by the District Attorney's office with ten counts of forgery, seven of embezzlement and three of grand theft.

On the witness stand he admitted obtaining checks totaling slightly more than \$200,000 on fictitious vouchers, but declared the vouchers had been drawn with the consent of A. B. Macbeth, president of the company, in order to obtain money to bribe city officials, who were demanding large sums to put legislation favorable to the gas company through the City Council.

David M. Carroll, minute clerk

## Gas Fund Manipulator Hears Fate From Judge

Sentence Condemns Him to Prison Life

R. E. Sweeney, former land and tax agent of the Southern California Gas Company, being sentenced to State prison as result of his conviction growing out of manipulation of gas company vouchers. Left to right—Joseph W. Ryan, counsel for Sweeney; the defendant; and Superior Judge Yankwich. A court reporter is in the background.

of the City Council, was declared by Sweeney to have acted as the principal for and to have received for his services, during a period of nine years, \$100,000. Lewis E. Whitehead, assistant City Attorney, was ordered to have received \$45,000. Bert L. Farmer and Fred C. Wheeler, former Councilmen, also were declared to have received several thousand dollars each. All of the above named men appeared in court, and under oath, denied Sweeney's charges.

### LIQUOR MENTIONED

Sweeney declared also that he sent cases of liquor to the City Hall for the dedication ceremony and during the nine years he served as lobbyist for the gas company was liberal with cigars, liquor and entertainment.

Testimony was brought out in court which verified Sweeney's account of parties held for city officials in a downtown hotel. Both Carroll and Whitehead admitted on the stand receiving gas money from the gas company for which they have not yet paid because the bills, they said, had not been sent to them. The stores had been ordered through Sweeney, both testified.

Countering Sweeney's testimony, the prosecution brought Sweeney's personal checks into the courtroom along with his deposit slips. The checks showed that Sweeney, from 1922 to 1928, spent \$288,491, largely for the same period did not exceed that amount. This in itself proved, the State held, that Sweeney had no money with which to carry on his asserted bribe transactions.

## CLOSED SHOP IN FRESH INROADS

(Continued from First Page)

Federation of Labor sponsorship, one of the most subtle attacks ever attempted against the city's industrial freedom, at one of the city's weakest points and against its largest pay-roll industry.

Regulating of the attack, which is directed as much against the city's whole open-shop structure as against the motion-picture industry alone, is in the hands solely of motion-picture magnates, most of the principals of whom live in the East. They have declined to co-operate with the principal open-shop agencies here on the theory that it is strictly their own affair. This view is opposed by some Los Angeles open-shop interests who believe the community welfare is at stake.

Now union strategists gained a foothold in the motion-picture industry, against which they now are about to move in considerable proportions, will be told in an article which will appear in *The Times* tomorrow.

## McCLELLAN CALLED TO SISTER'S BEDSIDE

Chairman McClellan of the Board of Supervisors was called yesterday by the serious illness of his sister, Mrs. Sadie Wheaton of Milwaukie, Minn. He expects to be away three or four weeks.

## HARDY DEFENDS TEMPLE CHECK

(Continued from First Page)

Following a conference with Arthur L. Veltch, attorney for Mrs. McPherson, Hahn said the suits will be carried into court.

His announcement followed a meeting with the evangelist's counsel at which a financial settlement was planned but which, Attorney Hahn said, failed to materialize because of a difference of opinion as to the amount of damage suffered by those who claim to have invested in a Lake Tahoe subdivision said to have been sponsored by Mrs. McPherson.

The suits filed to date by two Temple followers, Mrs. Malissa W. Puryear and Mrs. Ada E. Wharton, name Mrs. McPherson, her business manager Ralph B. Jordan, and C. E. Kenyon and H. L. Henry, subdividers, as responsible for their "investment in an enterprise out of which they could not hope to obtain an equitable return for many years, if ever."

### McPHERSON DEPOSITION

Mrs. McPherson is scheduled to appear at Hahn's office next Saturday morning to have her deposition taken.

Yesterday, counsel for the plaintiffs announced that no other suits will be filed until after the deposition is obtained.

Attorney Veltch said that the matter has been put over until today when another conference between himself and Benjamin Lewis, aide to Hahn, is scheduled to be held at which a settlement "may be worked out which Veltch declared Mrs. McPherson is unperturbed by a statement issued yesterday by her mother in Seattle revealing the payment of a \$2500 check to Superior Judge Hardy "for services rendered."

Dep. Dist. Atty. McInnis said yesterday that his office is proceeding with its investigation under State really laws.

The civil suits are the outcome of the establishment last year of a summer camp at Lake Tahoe by Mrs. McPherson and, in which several of her followers, according to their complaints, invested upon the strength of statements assertedly made by the evangelist over her radio and also which appeared in a temple publication.

Mrs. McPherson has denied connection with the subdivision other than her acceptance of four lots which she says were donated for an abode and outdoor bowl, which she plans to build.

## MAYOR VETOES TAX ORDINANCE

(Continued from First Page)

of Supervisors for the year 1928-29:

Elementary special	1927-28	1928-29
Elementary special	100.00	100.00
Elementary county	200.00	200.00
Elementary city	200.00	200.00
High special	400.00	400.00
High county	400.00	400.00
High city	400.00	400.00
High bonds	10.00	10.00
Total	\$1,870.00	\$1,870.00

This decrease has been worked out even though there is included in the current year's budget an amount for land, buildings and equipment of \$3,910,703 as compared with \$1,816,108 for the past year, an increase for capital outlays of \$2,094,595 for the current year.

## SEARCH FOR BODY IN SURF PROVES FUTILE

Search for the body of an unidentified person reported floating in the surf near Portuguese Bend between Redondo Beach and San Pedro Monday, yesterday failed to reveal any sign of the victim, Constable Henry of Redondo reported to the Sheriff's office last night. The search will be resumed today.

### W.C.T.U. MEETS TOMORROW

Two sessions of the Los Angeles Women's Christian Temperance Union, at which election of officers and transaction of official business will be the order of the day, will be conducted tomorrow at the First Methodist Church. The sessions will open at 10 a.m. and 1:30 p.m., respectively. The event will be the annual meeting of the local branch.

## STATE CLOSES IN MARCO CASE

Defense Seeks to Prove Accused Peaceful

Witness Tells Origin of Shooting Affray

End of Week to Bring Trial to Close

Efforts to establish that Albert Marco, so-called vice king, was in a peaceful and quiet mood the night he is asserted to have shot Dominick Contorno and Harry Judson in the Venice Ship Cafe, were made yesterday in Judge Doran's court, where Marco is on trial for a second time on two counts of assault with intent to commit murder.

Dep. Dist. Atty. Clarke, in charge of the prosecution, rested at noon, and during the afternoon Defense Counsel White called a number of witnesses to testify to Marco's demeanor the night of the fight.

The witnesses included Fred Barnes, a newspaper reporter; Bernice Gray, check girl at the beach resort; Lloyd Owens, attendant in the rest room where the fight is said to have started; Eddie Dunn, head-waiter; Tommy Jacobs, proprietor of the restaurant; Daniel Guzman, a patron, and Matt Smith, an auto park attendant.

Barnes testified that several hours after the shooting he went to interview Dwight C. Freeman, said to have been a principal in the affray that led to the shooting. Barnes asserted that Freeman appeared to be intoxicated at the time.

Guzman testified that Freeman was in an argumentative mood while at the cafe and that Freeman directed some heated remarks at him because of their political differences. Owens also testified that Freeman was argumentative.

The fight that led to the shooting of Contorno and Judson is said to have started in a quarrel between Freeman and Marco in the cafe rest room. The defense is seeking to prove that Marco did not fire the shots that wounded Contorno and Judson, but that if he did he was justified by acting in self-defense. The trial, which will be resumed this morning, probably will be concluded by the end of the week.

## BOY'S DEATH INQUIRY TO BE DELAYED

Investigation Will Wait Until Chemical Analysis Can Be Reported

Investigation of the death of Joseph Roseman, 3 years of age, believed caused by dog poison, yesterday was deferred by the Sheriff's office until after a chemical analysis is made.

The Roseman boy died at the home of his parents, 11148 Wiley avenue, Lynwood, on the 3rd inst., a day after a family pet dog, a member of the family told officers that they believed their son had eaten poison tossed in the yard for their cat the previous day. Dr. Y. C. Crowl, attending physician, also expressed the opinion that the boy had taken poison. The chemical analysis is expected to be finished in a week.

## Police Officer Exonerated of Liquor Charge

Retraction by Councilman Tower of Glendale of his charges before the Police Commission that a Los Angeles policeman, John T. Walker, openly drank liquor, offered it to employees of a Glendale garage, and boasted he obtained a supply from bootleggers, marked the proceedings of the commission yesterday.

The retraction was in the form of a letter by Tower, explaining that the charges had been made by E. E. Williamson, an auto salesman, before forty members of a Bible class in the First Methodist Episcopal Sunday-school. Tower explained he had every confidence in the statement of Williamson and expressed surprise when he found Williamson denied making such statement.

One communication was a signed statement by Williamson, in which he declared he never saw Police Officer Walker take a drink, never saw him under the influence of liquor, or offer liquor to anybody.

## HICKMAN CASE REWARD GIVEN

(Continued from First Page)

as the man who held him up and this was important in tracing Hickman through the north. A 1 per cent allotment also is given C. N. Shirley of the Los Angeles Police Department, who found in a parking station the automobile used by Hickman and also discovered on the car the fingerprints afterward ascertained to be those of Hickman.

### MAYOR'S STATEMENT

At the conclusion of the meeting of the committee at the City Hall yesterday afternoon, Mayor Ciryer said:

"The committee and its legal advisers have been working for months to secure the facts on which to base these awards. It should be remembered that KFWB gathered a fund from the public for the apprehension of an unknown person who had killed Marian Parker. The person not being known, the word apprehension carries with it in this case a number of steps—first establishing the identity of the murderer, locating him, tracing his moves, and finally his apprehension. The man's identity was established a long step was taken toward his capture. For this reason the committee allocated the reward so that 10 per cent was given for identification assistance, 30 per cent for information as to Hickman's moves and 60 per cent for his apprehension."

The Citizens' Committee consisted of Mayor Ciryer, Gerald King, manager of KFWB; Fred Beston of the Motion Picture Producers' Association, and the Los Angeles newspaper publishers.

The money will be paid at once by KFWB to those designated by the committee.

## Where a Ticket gives more than Transportation

You can have no idea of the entrancing beauty of the Feather River Route unless you have actually traveled this way.

The Scenic Limited affords excellent service and delicious meals. You pass through world famous scenery as your car window frames an ever-changing panorama.

## KELLEY'S DEATH PLEA REVEALED

Officers Testify to Offers Made by Accused

Defendant Asked to be Shot, They Assert

Finding of Liquor in Mellus Home Described

Presenting a climax to the State's case against Leo P. Kelley, butcher who was tried in Superior Judge Bowler's court for the murder of Mrs. Mellus, two detectives who arrested and questioned Kelley on the day of the murder took the stand as prosecution witnesses.

The testifying officers were Acting Captain Stoll and Detective "Lem" Stoll, both of the Wilshire division.

The major points brought out from the testimony of these two witnesses by Dep. Dist. Atty. Cottle and Colegrove were as follows:

**POINTS BROUGHT OUT**

(1) Attracted by heavy breathing, the officers found Kelley equalizing his heels in a closet in the main room, the place where the main attack on Mrs. Mellus took place.

(2) There was blood on Kelley's shirt under his fingernails and a handkerchief in his pocket.

(3) Kelley declared, according to the officers, that he had opened the door of the main room with the intent of escape, but was afraid to go out because he thought someone was outside.

(4) On four different occasions after his arrest, but on the same night, Kelley implored the officers to shoot him.

(5) Kelley admitted having an argument with Mrs. Mellus and declared that his mind was a blank at the time of the attack on Mrs. Mellus.

(6) Detective Stoll took this man into the room for a moment.

"Then was a silence, and then I heard sounds as though someone was breathing heavily," testified Stoll. "I looked under the bed and then opened the closet door."

But came back at this point and both officers peered into the closet. There were several dresses hanging there and under them they made out an "object," Stoll said. "The object later proved to be Kelley's body."

**WITNESSES ORDERED**

Stoll and Colegrove next testified that Kelley fell on the floor of the main room and his legs remained in the closet.

At this point Frank R. Mellus, the husband, rushed in and attempted to be killed with a chair. Stoll testified of the blow and took Mellus outside.

"I got me, boys; I have no more to say," Kelley told the detectives as he lay on the floor.

The handcuffed Kelley's hands behind his back and asked him what he had to say.

"I just had too much; why bring me here? Why you murder me?" Kelley retorted his captors.

"I'd have known she was dead when I said then to have doctors come. One of these handkerchiefs and you won't have to shoot me in the back."

They took him upstairs then because Kelley said he wouldn't be killed by the doctors and sat down by the body and removed the covering from the mutilated man.

"Now is the woman you have killed?" Stoll told him.

"Yes, I just hung his head and neck out," Stoll testified, but was cut off.

"The God's sake, Stoll, don't look at that way!" Kelley requested again that they shoot him and let him walk free.

## Trojan Track Coach Returns

Dean B. Cromwell, track coach at the University of Southern California, and assistant coach of the United States Olympic Games team, arrived in Los Angeles from Amsterdam yesterday. Cromwell, who had charge of the pole vaulters and the 400-meter relay team, said that the track condition is well up with the best in this country. Cromwell believes there is no foundation in fact for the rumor that the disappointing showing of the American team was due to over-heating. In his opinion, the athletes displayed remarkable stamina to hold up under the numerous heats.

**NAVY AIR CHIEF HERE FOR RACES**

Arrives from Chicago and Reports to Wilbur

Western Express Planes and Pilots Given Praise

Goes to San Diego to View Fleet Maneuvers

Preceding other distinguished aviation officials who will arrive in Los Angeles soon to attend the National Air Races at Mines Field, the 8th Inst. Assistant Secretary of the Navy Wilbur reached Vail Field yesterday aboard a Western Air Express mail plane. The youthful official, who is in charge of the aviation branch of the Navy, flew to Los Angeles from Chicago, leaving there Monday at 8:30 p.m., arriving here shortly after 4 p.m. yesterday.

Almost immediately after landing Secretary Wilbur held a short telephone conference with Secretary of the Navy Wilbur and later a second conference with his chief in person. Immediately after the second talk Mr. Wilbur boarded a train for San Diego where today he will go aboard the airplane carriers Lexington and Saratoga from where naval flying maneuvers now are in progress.

**BACK FOR RACES**

He will return to Los Angeles in time for the opening of the air races and will remain in Southern California with the fleet until the 15th inst.

"I will better be able to talk about naval aviation affairs after I have inspected the fleets and made the visits aboard the various ships I plan to make while here," he said.

"However, the majority of my actions will be determined by any wishes of Secretary Wilbur and in accordance with such program as may have been mapped out by Commander Reeves in charge of the Pacific Fleet air units," he added.

The air chief took occasion to pay high compliments to the Western Air Express and their long record of safe flying between Los Angeles and Salt Lake City.

"After making that flight from Salt Lake City to Los Angeles I am greatly impressed by the remarkable record of safety established by the men flying over the route," Mr. Wilbur said.

**PRaises SERVICE**

"Flying conditions, in so far as weather is concerned, could not be better but I have never seen any territory which will penalize mechanical failures as will the mountainous country over which the air line flies. There are several stretches of fifty miles or more wherein a spot for a forced landing cannot be seen. That there have been so few, if any, accidents is a tribute to the men flying the planes and the mechanical perfection of the machines in use," he said.

The naval flying official was met at Vail Field by Vice-president Cook of the Chamber of Commerce, Commodore Woodhouse of the Naval Reserve and three naval flyers from San Diego who had flown naval ships here to take their chief south.

After his telephone conference with Secretary Wilbur, Mr. Wilbur changed his previous plans to fly to San Diego and announced he would make the trip by train, joining the fleet in the southern port this morning.

He tentatively accepted a luncheon engagement for the 12th inst., as guest of the Chamber of Commerce, but would not make the engagement definite, his attendance depending on the program of the Society of Automotive Engineers which he will attend here, he said.

**AIRSHIP MAY BE BASED HERE**

(Continued from First Page)

sufficient to arouse the admiration of every citizen.

The Secretary briefly reviewed recent crises abroad in China and Nicaragua, where the Navy by prompt and decisive action, tempered with excellent judgment and justice, has secured peace in protecting Americans and their properties on foreign soil, at the same time utilizing excellent tact and diplomacy to avert serious international complications.

In China he reviewed the action of the Navy in the Nanking incident and other naval activities in the Orient in caring for American citizens stranded in the war-inflamed nation.

**NICARAGUAN AIM**

Secretary Wilbur reiterated that it is the desire of the United States to establish and preserve peace in Nicaragua. He declared that he believes the difficulties with the Sandino faction have ceased and that the forthcoming election under the supervision of American arms will be conducted peacefully.

He also disclosed that 800 cadets from Annapolis have been assigned to schools in Nicaragua to familiarize themselves with the Spanish language and Nicaraguan idiom more intelligently to assist in the conduct of the election.

Secretary Wilbur praised the aeronautical division of the Navy. By way of illustration of the spirit of the "sea eagle" he graphically recounted the flight of Lieut. Champion in which the world's altitude record was broken and a flaming plane brought to earth by the daring aviator. The Secretary stated that Lieut. Champion recently asserted he will try the flight again.

**OTHER TOPICS**

Other details of naval administration, including activities at Washington, arrangements of legal procedure aboard warcraft and the efforts of the Navy Department to increase the efficiency of ships and personnel and especially the latter by a broader understanding of the man-of-war's man's problems, were spoken of by Secretary Wilbur.

The distinguished guest was introduced to the gathering by John G. Mott, the Secretary's law partner in Los Angeles in former years. Mr. Mott paid a tribute to Secretary

## SOCIETY

Mr. and Mrs. Frank W. Davey, who have been abroad for several months this summer, are again at their home in Lanewood avenue, Hollywood. They were accompanied by their daughter-in-law, Mrs. Joseph Davey, in their traveling abroad, and while on the continent met many friends from home, including Mr. and Mrs. Walter Robey Simons, who, by the way, are not returning to Los Angeles until October. Mrs. Georgia Keating Kennedy, and her son King, who are returning shortly, and many others.

Mr. and Mrs. Beverly Scott have arrived home after a six months' trip through Europe, their itinerary including Spain, Algeria, Morocco, the Dalmatian coast, Italy and France. They are again domiciled at the Garden Court Apartments in Hollywood.

**Silver Wedding**  
Mr. and Mrs. Fred O. Hamilton of 908 South Broadway celebrated their silver wedding anniversary Friday evening at one of the most elaborate dinner parties of the season in the Ambassador Occident Club.

The entire staff of the grove where the ninety-three guests assembled was beautifully decorated with flowers. The table was laid in cloth of silver with a huge silver candelabra with pink candles tipped in silver at each end. A profusion of flowers in different shades of pink and rose with silver leaves decorated the table, and at each of the feminine guests' places were silver leaves. The table center was a large silver wedding bell. Place cards were pink engraved in silver with the dates 1908 to 1928.

**Charleston of Son**  
Thursday night at 8:30 o'clock at the Little Church of the Flower occurred the christening ceremony for Harold Charles Brady, son of Mr. and Mrs. Harold W. Brady, 308 South Gramercy place. The baby, who was 7 weeks old, was christened by Dr. Edwin P. Ryland, with water brought from the River Jordan especially for this purpose. George Anderson acted as godfather, and Joseph Oliver Carter as godmother. The ceremony was attended by a few intimate friends of the family, including Mrs. Anderson, Dorothy Cassel, Anderson, Mrs. Emma B. Lipke, Catherine B. Lipke and Helen Welton.

**University Notes**  
Active in rushing among the sororities at the University of California at Los Angeles is Alpha Psi. The week of the past week a sport was held at the home of Mrs. J. Orin in Highland Hills to which twenty guests were invited. A large number of orange flowers helped to carry out the color scheme of orange and green with which decorations the home presented a charming background for the affair. Friday following the tea, a beach party at the home of Miss Marian Vallat in Santa Monica served to bring together twenty-five guests and as many hostesses. Swimming at the Uplifters' Club and bridge succeeded by a delightful supper provided the day's entertainment.

**In The North**  
Mr. Gov. William D. Stephens and Mrs. Stephens of Los Angeles, are visitors in San Francisco and during their stay of several months in the north they will make the Fairmont Hotel their home.

Mr. and Mrs. G. Cotting, Mr. and Mrs. H. C. Watson, Mrs. Frances Farley, Mrs. H. B. Lockwood, and Mr. and Mrs. William Baerlyte who are accompanied by Miss Porter, all of Los Angeles, are visitors in San Francisco and registered at the Fairmont Hotel.

**Birthday Anniversary**  
Memorable was the day for little Harry Moffett, who has reached the fourth milestone on the highway of his happy career. Eleven little companions whose years are between three and five joined the festivities which were arranged at the home of Mr. and Mrs. Harry J. Moffett at 315 North Beachwood drive, on Thursday afternoon between the hours of 2:30 and 5 o'clock.

Many attractive pleasures interested the little tot. Two Shetland ponies were provided for horseback riding on the spacious grounds in the rear, surrounded by tall pines which threw a shade from the Southern California sun. An orchestra of four pieces gave the children music to the riding and romping of the sons and daughters of Southern California. Bicycles and tricycles were kept constantly busy, and other innumerable playthings which made their moments of glee and happiness.

At 4:30 o'clock a table was spread with dainties and ice for the twelve happy little faces with the colors of red, white and blue in decoration with a volume of flowers in the center stood a huge cake beautifully decorated. Those included were Jack White, Ben Hunter, Harry Moffett, Jack Moffett, Peter Bunch, Jack Fairman, Edwin Fairman, Jack Brown, Martha Hunter, Barbara Herlihy and Audrey Chamberlain.

**From Gotham**  
Mr. and Mrs. Richard B. Moore are numbered among the recent arrivals at the Chapman Park Hotel. Mr. and Mrs. Moore motored from California from their home in New York city and were accompanied by their son, Thomas Moore. Their trip took them through the southern states with quite long stops at New Orleans, Santa Fe and the Grand Canyon. During their stay in Los Angeles they will be extensively entertained by their many friends in the Southland.

**Luncheon Party**  
Mrs. William Atkinson of San Francisco, who is staying with friends in Los Angeles for a few weeks, entertained a number of her friends with a large luncheon in the Green Room of the Chapman

NEWLYWEDS BACK FROM TRIP  
Six Weeks' Tour Made Through Alaska

Mrs. Frederick Mogie (Boys studies)

**M** R. AND MRS. FREDERICK Mogie, who have just returned from their six weeks' honeymoon trip to Alaska, will make their future home in Pomona.

Mrs. Mogie formerly was Miss Marjorie Herriks, daughter of Mrs. Lewis R. Lillis of Los Angeles, and she was graduated from the University of California at Los Angeles, and is a popular member of the Gamma Phi Beta Sorority, having acted as social chairman of the Los Angeles alumnae chapter.

Park Hotel last Thursday. Each small table was exquisitely decorated with yellow roses and delphinium. After the luncheon the guests adjourned to the lounge, where bridge was played, charming favors being given for high scores.

**Herriks-Mogie**  
Miss Marjorie Herriks, daughter of Mrs. Lewis R. Lillis of Los Angeles, became the bride of Frederick Mogie of China at a pretty home ceremony. Rev. John M. Baxter officiating. The bride, attractively gowned in a poudre bleu georgette ensemble, wore a small lace hat and was assisted by her sister, Mrs. O. D. Conner, while Mr. Conner was best man. Mr. and Mrs. Mogie have just returned from a six weeks' honeymoon trip to Alaska.

Mrs. Mogie was graduated from the University of California at Los Angeles and is a popular member of Gamma Phi Beta Sorority, having acted as social chairman of the Los Angeles alumnae chapter. Mr. and Mrs. Mogie will make their home in Pomona.

Among the pre-nuptial courtesies for Mrs. Mogie was a bridge-luncheon and shower given by Miss Dorothea Adams and Mrs. C. Stewart Green at the Women's Athletic Club.

Miss Dorothea Cassidy gave a bridge-les and shower at her home, members of the Gamma Phi Beta Sorority being the invited guests.

**Stewed Lamb Hearts**  
Wash three lamb hearts and carefully slice across the grain. Heat three tablespoons of butter in a saucepan, add the sliced hearts and cook until brown; add enough hot water to cover, season with salt and pepper, add a bay leaf and three slices of lemon. Cover the pan and simmer slowly for one hour, stirring often. When tender remove the hearts to a hot dish, stir into the gravy one tablespoonful of flour mixed to a paste with three tablespoons of water and stir and cook five minutes; pour over the hearts and serve hot.

**PEARL TARTS**  
Rub one cupful of butter into four cupfuls of sifted flour sifted with half a teaspoonful of salt and four tablespoons of sugar; when the mixture is like coarse meal, work to a smooth, stiff paste with two slightly beaten eggs and about three tablespoons of ice water. Roll out in a thin sheet and line tart moulds with it; fill the tarts with peeled and sliced pears and sprinkle over the tops sugar mixed with a little ground cinnamon. Rub enough cooked apricots through a sieve to make one and a half cupful, mix with one cupful of sugar and boil five minutes. When the tarts are filled bake in a medium oven until the pastry is crisp. Cool slightly, remove from the moulds and spread the tops with the apricot jam. Serve cold.

**GRAPE WHIP**  
Two cupfuls of grapes, one cupful water, one cupful syrup, one tablespoonful grated gelatin. Pour the mixture into a bowl set into a pan of cold water and whip until it begins to foam. Then put

HEALTH AND  
ADVICE  
By Dr. Frank M. Cox

Dr. Cox will answer personal questions on health and diet, addressed to him, care of The Los Angeles Times. Include stamp, addressed outside the city.

**GOTTER**  
This disease has been found in every country in the world, and many theories have been advanced as to its cause. For a long time it was supposed that the absence of iodine in food was responsible for this condition, and this idea is still being exploited by manufacturers in many parts of the country, but this cannot be the true cause of goiter since it is present in the female sex about six times as frequently as in the male, and both sexes presumably consume the same amount of food. The fact that goiter is very prevalent in Switzerland and in other mountainous districts where people do not obtain much iodine in their water or food, has been frequently used as proof of this statement. However, along the Jersey coast and in many parts of Japan, where iodine is plentifully supplied in both food and drinking water, goiter is frequently found. Excessive use of starch seems to be an important factor in producing enlargement of the thyroid gland.

It is a well-known fact that the thyroid gland is slightly larger in women than in men, and this gland is plentifully supplied in both food and drinking water, goiter is frequently found. Excessive use of starch seems to be an important factor in producing enlargement of the thyroid gland.

The thyroid is one of the ductless glands that have furnished matter for much speculation, and probably more is known about the action of the thyroid than of the other ductless glands, such as the pituitary, adrenal or gonads. This gland is situated at the base of the throat in front of the windpipe, is shaped very much like two small kidneys, one at either side and connected together by a thin isthmus. The gland secretes a substance called thyroxine, which is essential for the proper functioning of the body.

**QUESTIONS AND ANSWERS**  
Question: D. W. R. asks: "Is there any cure for adhesions of the gall bladder besides an operation?"  
Answer: Adhesions of the gall bladder are usually the result of inflammation. They can sometimes be broken up by manipulative treatment.

**YOUR BABY AND MINE**  
By Myrtle Meyer Eldred  
Mrs. Eldred will be glad to answer all questions pertaining to babies and children, forwarded to this column. The department offers advice on a wide range of subjects, including diet, clothing, discipline, and general child care.

**Janitors Who Failed in Test to Be Ousted**  
More than sixty janitors of the 135 now employed in the City Hall who failed to make a sufficient percentage in the recent civil-service examination must be discharged. Custodian Rodgers announced yesterday. Their places will be filled by those who showed more aptitude in answering the numerous questions when nearly 1000 men took the examination.

**WHY LACTIC ACID IS USED WITH COWS' MILK**  
Mrs. W. J. G. writes: "Will you please answer this question, which has puzzled me a lot lately? Why is lactic acid used in milk? Is it good for babies that it isn't used for all of them? In your feeding leaflet you advise mothers to give babies milk, water and sugar for the first few days. Is it better to use lactic acid milk? I shall be glad to have you tell me this."

**STEWED LAMB HEARTS**  
Wash three lamb hearts and carefully slice across the grain. Heat three tablespoons of butter in a saucepan, add the sliced hearts and cook until brown; add enough hot water to cover, season with salt and pepper, add a bay leaf and three slices of lemon. Cover the pan and simmer slowly for one hour, stirring often. When tender remove the hearts to a hot dish, stir into the gravy one tablespoonful of flour mixed to a paste with three tablespoons of water and stir and cook five minutes; pour over the hearts and serve hot.

**PEARL TARTS**  
Rub one cupful of butter into four cupfuls of sifted flour sifted with half a teaspoonful of salt and four tablespoons of sugar; when the mixture is like coarse meal, work to a smooth, stiff paste with two slightly beaten eggs and about three tablespoons of ice water. Roll out in a thin sheet and line tart moulds with it; fill the tarts with peeled and sliced pears and sprinkle over the tops sugar mixed with a little ground cinnamon. Rub enough cooked apricots through a sieve to make one and a half cupful, mix with one cupful of sugar and boil five minutes. When the tarts are filled bake in a medium oven until the pastry is crisp. Cool slightly, remove from the moulds and spread the tops with the apricot jam. Serve cold.

**GRAPE WHIP**  
Two cupfuls of grapes, one cupful water, one cupful syrup, one tablespoonful grated gelatin. Pour the mixture into a bowl set into a pan of cold water and whip until it begins to foam. Then put

STORE'S NATAL  
DAY OBSERVED

J. W. Robinson Company in Celebration

Has Been Thirteen Year on Seventh Street

Seven-Day Sale Opens to Mark Event

**BY OLIVE GRAY**  
Thirteen now is conceded by students of events, to be the number of fulfillment. Celebrating thirteen years on Seventh street, the J. W. Robinson Company, yesterday opened doors to an eager clientele ready to assist in the happy event. Unusual it is to see the class of patrons thronging there among early morning shoppers, and only announcements such as those made by this high-class house could have brought about such a gathering.

**PIONEER COMPANY**  
Among the most conservative of stores, yet one of the most progressive, Robinson's ever has been the synonym for reliability and absolute integrity. The history of this house, dating back for nearly fifty years, is one which proves anew the truth of the statement that "honesty is the best policy." Conservative in all statements regarding merchandise, progressive in alert attention to that which is new and best, ready to lead, rather than to follow, Robinson's has built throughout the years a reputation singularly enviable.

**End-of-the-month sales**, introduced to Los Angeles by this firm, have become events in the shoppers' calendar. Remarking from Massachusetts to Los Angeles, then a mere pueblo, in 1883, the Boston Dry Goods Store, later renamed for the founder of the house, ever since has been under the management or in the hands of the same family. The same rock-bottom rules of business have been handed down and today prevail. The same fine courtesy to the humblest patron as is extended to the social leader arriving in her carriage or limousine, the same square deal for one as for the other, are the principles that animate this business.

**LED CITY'S PROGRESS**  
The first home of the business, on Temple street at Spring, then the retail shopping center, later was exchanged for a location at 173 North Spring. At the retail center moved to Broadway, that street where the business was established as the home of Robinson's.

Leading, rather than following, the new store on Seventh street was completed thirteen years ago, and it is this event which the company now celebrates with a seven-day offering of merchandise from every section of the house. It is this event, with its promise of rare values for the discriminating, which yesterday brought the well-dressed, high-class throng to the doors of the store.

**LOYOLA'S REGISTRY INITIATED**  
Thousand Students Hope Semester Will Be Last in Present Building  
Beginning, as they hope, their last semester in their present college at 1901 Venice Boulevard, 1200 students registered at Loyola College yesterday.

**GREEK FRATERNITY GIVEN RECOGNITION**  
Delta Mu Phi, Greek letter fraternity at University of California at Los Angeles has been awarded recognition by the national society, Delta Upsilon, after three years of petitioning. The chapter now in operation here numbers twenty-eight active members, twenty-seven alumni and four faculty members.

**EAGLES WILL HONOR BARHAM WITH EVENT**  
Thursday night, the 26th inst., has been designated as Bert Barham night by the members of Los Angeles Aerie, No. 102, Fraternal Order of Eagles, at which time a large class of initiates will be inducted. In honor of Barham, who has seen the growth of the order here from 122 to more than 3200 members, Charles W. Cradick, worthy president, named a membership committee which includes G. W. Jack, Lenley, chairman, Capt. James P. Bean, Sheriff Treasurer, Attorney Jerry Sullivan and Clarence Hall; William Bonelli, president of the City Council; Judges Wilson and McConnell; James G. Lowe, John McCardie, John Bowers and Assemblyman William M. Byrne.

NEW STORE  
CATERS TO COLLEGIANS

Riding Attire and Country Club Wear Also Will Be Especially Featured

BY OLIVE GRAY

The university section, correlation of the Collegienne, which has proven so popular at Bullock's, opened its doors yesterday, the final store to be installed in the new building on Hill at Seventh street. Spacious stairways leading from Hill street, as well as batteries of elevators within, invite to the new quarters, where has been grouped everything for the university man, or for the one who would appear as such.

Snappy suits and separate garments, such as the younger generation chooses, are found here. Also here are sports tops for golf and tennis, while a section devoted to sporting goods is conveniently at hand.

Old English oak is the framing, appropriate to the walls and draperies, adding to the effect. Stability, rather than ornateness finds expression, as best suited to men's merchandise and to sports attire.

A special section devoted to riding special furnishes the latest styles in such habiliments for both men and women. Riding rooms in this connection are equipped to fit the figure, that figure being mounted upon a "horse." Here may be found everything for the equestrian, or equestrienne, from the most conservative of riding attire, to the most extreme, both American and foreign. Even the "pink" hunt coat, for riding to hounds, may be seen here. Golf, field and country club essentials, all are provided with simple space in the many sections of this new university shop, at Bullock's.

**Good Make-Up**  
Requires a Foundation of Neatness  
Acquire it by the daily massaging of skin with the beauty oils embodied in this true complexion soap.

**LOVELY skin is won** by washing the face properly. Until the skin is thoroughly cleansed never put make-up on, warn beauty experts.

Here is the beauty secret millions practice each night before bed to gain the charm of natural loveliness. Massage your face with the abundant oils of olive and palm, as found in the rich lather of Palmolive Soap. It is a soap made for beauty, nothing else. And no other soap combines, so perfectly, the qualities of a good soap with the benefits of a skin treatment.

# Santa Ana's Twelfth Annual Orange County Fair is Colorful Exposition

THE twelfth annual Orange County Fair, housed in seven huge tents covering an area of 200,000 square feet, opened Monday at Santa Ana. A comprehensive display of products of the Southland, from oil to oranges, in highly attractive settings which justify the catchline "Garden Beautiful" used in preliminary advertising. Designs of individual displays follow no general plan with the result that the ensemble is a mass of color and variety. In addition to the products exhibits are an automobile show and a live-stock show, in the latter of which more than 500 head of prize horses, cattle, sheep and hogs are entered. Photos below on this page were taken yesterday. (Times photos.)

## OUR HISTORY IN PICTURES 1125

The Story of the Panama Canal—Part 9.  
Nicaragua Or Panama?

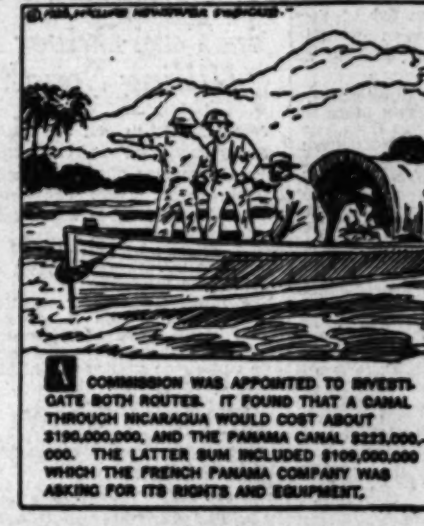

by J. CARROLL MANS

IN 1901, THE CLAYTON-BULWER TREATY BETWEEN THE UNITED STATES AND GREAT BRITAIN WAS RATIFIED. THE TERMS OF THIS AGREEMENT CANCELLED THE CLAYTON-BULWER TREATY, WHICH SINCE 1850 HAD BOUND US TO JOINT ACTION WITH ENGLAND IN ANY TRANS-ISTHMIAN CANAL PROJECT THAT EITHER MIGHT UNDERTAKE.

AT THE SAME TIME THE FRENCH CANAL COMPANY AT PANAMA WAS EAGER TO BELL OUT. NOTHING STOOD IN THE WAY OF AN AMERICAN-OWNED CANAL, BUT THE QUESTION AROSE: WHICH ROUTE TO TAKE, NICARAGUA OR PANAMA?

A COMMISSION WAS APPOINTED TO INVESTIGATE BOTH ROUTES. IT FOUND THAT A CANAL THROUGH NICARAGUA WOULD COST ABOUT \$100,000,000, AND THE PANAMA CANAL \$225,000,000. THE LATTER SUM INCLUDED \$100,000,000 WHICH THE FRENCH PANAMA COMPANY WAS ASKING FOR ITS RIGHTS AND EQUIPMENT.

WHEN THE COMMISSION REPORTED, THE NICARAGUAN ROUTE (PROPOSED BY THE FRENCH COMPANY) WAS DEEMED THE CHEAPER. THE COMMISSION PROMPTLY COMMISSIONED TO FAVOR THE PANAMA CANAL.

WEDNESDAY MORNING.

MEETING NEXT MURDER DRAMA

Parents of Slain Girl to See Beitzel Today

Accused Man to Appear in Court Tomorrow

Father to Visit Morgue to Attempt Identification

Russel S. Beitzel, accused of slaying his common-law wife, Barbara Mauger, will meet the girl's parents, Mr. and Mrs. Henry L. Mauger, face to face, today.

Tomorrow Beitzel will start the fight to beat State charges that he took his 19-year-old companion to a lonely spot near Hultholm High Way and shot her. He pleaded not guilty and not guilty by reason of insanity at his preliminary hearing. He will appear in Department Twenty-seven of the Superior Court tomorrow with his counsel.

The meeting today will take place in the County Jail at 10 a.m., following a conference of prosecution attorneys and investigating officers with Mr. and Mrs. Mauger, according to plans of Detective Lieutenants Sanderson and Condon, homicide squad officers in charge of the case.

Books discovered Assertions that Beitzel intended to flee either before or after he is asserted to have killed the Mauger girl were made yesterday by the two investigating officers. They produced short-course books on Chinese and Spanish, which they said were found in Beitzel's room following his arrest. He admitted studying them, Sanderson said, and remarked that "Chinese is easy that way."

Introduction of testimony in the trial that Beitzel was associated with another girl in a way paralleling the Mauger case may be made, according to Sanderson. He refused to disclose details of this part of the State's case.

Following the conference in the office of Dep. Dist. Atty. Messias and the meeting in the jail, Mauger will be taken to the County Morgue to attempt an identification of what the State declares is the body of his daughter.

DENTAL WORK CLEW Dental work which Mauger has described to Condon will be the basis for identification, officers said. Several molar teeth of Barbara Mauger had been filed in Philadelphia with temporary filings. Sanderson said the girl's father told him.

Mr. and Mrs. Mauger left their home in Philadelphia to attend Beitzel's trial. Today's meeting will be the first since they declared Beitzel left for California with their daughter.

Fears that Mauger or Beitzel would become enraged at a meeting

GIRLS VISIT ALLIGATOR FARM

Indian Agency Charges Given Treat

Beauty and the Beast in Latest Juxtaposition

Young alligator is tamed by the wiles of Geraldine Dewey, pretty Indian girl, who is being shown sights of city under auspices of Y.W.C.A.

Under the auspices of the Young Women's Christian Association a group of about fifty Indian girls visited the alligator farm yesterday. The Y.W.C.A. co-operates with the government in caring for the Indian girls who come to the city from the numerous Indian schools and reservations. They furnish homes for the young girls and are active in providing a general program of education and entertainment to enable the girls to meet the problems of American life.

Contact with wholesome city homes instills a desire in these young girls to compete with their white neighbors in establishing model homes of their own, and in general encourages the right ethical standards of American citizenship.

While the girls are in the city for short visits, the Y.W.C.A. takes them to innumerable places of interest.

In the conference rooms or in the morgue prevented Sanderson from having the latter present at the conference or at the identification attempt. The officer said both men will be guarded closely during the jail meeting.

The State charges that Beitzel killed Barbara when he learned that she was to become a mother. The skull of a baby was found near the remains of the woman.

NEWS OF THE CAFES

Texas Guinan, known as the "Queen of the Night Clubs," will be at the Montmartre this evening to demonstrate to patrons of this cafe just how she made her night club one of the most successful in the country. Miss Guinan will be the guest of honor and will also act as master of ceremonies introducing in her own inimitable fashion the many celebrities who are expected to be present, it is announced.

A feature of the unusual entertainment that Eddie Brandstadter has arranged for this evening will be the grand pageant and fashion show staged by the auspices of Martina Dean, gown designer, it is stated. The most fashionable styles in fall and winter costumes will be exhibited on beautiful mannequins. Roy Fox, the whispering cornetist, and Xavier Cugat with his stringed tango orchestra, will provide exceptional musical entertainment.

BEACH CAFE REMODELED The reopening of the White House Cafe at Laguna Beach, after a fire several months ago, is announced by R. A. Bird, owner and operator. The cafe has been remodeled throughout, requiring an expenditure of \$25,000, making Mr. Bird's total investment \$150,000.

In addition to a large dining-room and a coffee shop on the ground floor, the White House comprises a group of artistically decorated private dining-rooms on the second floor. For a number of years Mr. Bird

NOTICE: Col. Thos. A. Davis, Pres., will be at the Alexandria Hotel, Mezz. Floor, from 10 a.m. to 4 p.m., and will be pleased to give information regarding the Opening of the Fall Term of the San Diego Army & Navy Academy Thurs., Fri. and Sat. Sept. 6, 7, 8

Charing Cross School

A school where every child is recognized as a human soul, where a happy atmosphere helps to create a serene disposition in the child, so important to finer manhood and womanhood.

A home school, which bridges the gap between home and school. An environment of simplicity and refinement, influencing character, creating poise and advancing mental and spiritual qualities. Stressing concentration and initiative, inviting independent thought.

Faculties and policies which assure high scholastic standing, employing certified teachers, following Los Angeles courses from state text books.

Committed to the development of that intellectual standard which knows no snobishness, assuring true culture in the child.

Music, Art and Expression are particularly emphasized and French lessons are given the children daily.

In consideration of the welfare and best interests of your child, you are cordially invited to make a thorough investigation of this new institution conveniently located, opposite the Ebell Club.

Charing Cross School 734 South Lucerne Boulevard

AIR SQUADRONS TO JOIN FLEET

Three Groups of Corsair Planes Due 24th Inst.

New Craft Have Service Speed of 150 Knots

U.S.S. Virginia Back from Repair Trip

The dreadnaught squadron will receive the benefit of five years of effort by navy aeronautical engineers at San Pedro the 24th inst., when three squadrons of the new Vought Corsair observation planes fly up from San Diego for permanent stations aboard the battleships. Their arrival, fleet officials declare, will mark a great step forward toward the fleet's goal of control of the air at sea.

The new force is composed of squadrons VO-3B, VO-4B and VO-5B and will be under command of Lieutenant-Commander George D. Murray, at fleet aviation officer. The Corsairs, with a service speed of 150 knots, are powered with the new Pratt and Whitney Wasp air-cooled engines of 425 horsepower and are said to have maneuverability and controllability superior to all other sea and land planes of observation type.

WILL REPLACE OLD PLANES The Corsairs, officially known as OS-U's, will replace the obsolete Vought U-O's heretofore used on shipboard, while in the near future Curtis and Boeing shipboard fighters will be assigned to the battleships, replacing the present Vought single-seaters.

The new aircraft carrier Saratoga will also receive during the next fortnight the first complement of the eighty-four new air-cooled planes of four types with which she and her sister, the U.S.S. Lexington, are to be equipped. These include the Navy's new T-3M, Martin three-purpose metal planes for bombing, scouting and torpedo work; Corsairs; Leaning OL-3 amphibians; and Boeing and Curtis fighting and "strafing" planes. The Saratoga's new force will have their first tactical tests the 14th and 15th inst., when they will play an important role in the fleet exercises.

Rear-Admiral William A. Moffet, chief of the Naval Bureau of Aeronautics, will arrive in Los Angeles from Washington this morning and will immediately go to San Pedro and board the fleet flagship California for a conference with Admiral William V. Pratt, commander-in-chief of the battle fleet. Tomorrow he will inspect the Saratoga and then fly to San Diego for inspection of the naval air establishment at North Island. Friday he will fly back here to attend the opening of the national air races.

Also present at the opening of the races will be Assistant Secretary of the Navy for Aeronautics Warner, who arrived here yesterday by air-mail plane.

VIRGINIA RETURNS The U.S.S. West Virginia, flagship of the dreadnaught squadron, carrying the broad pendant of Vice-Admiral Louis M. Nulton, rejoined the fleet at daylight yesterday from her overhaul period at the Puget Sound navy yard. She fired a seven-ten salute to the flag of Admiral Pratt as she entered the roadstead, the honor being returned by the flagship California.

Today, aboard the flagship Princeton, Rear-Admiral Sumner K. W. Ells will relieve Rear-Admiral Woodward W. Phelps as commander of the United States Fleet base force. Admiral Phelps comes to the fleet from two years' duty as commander of the Sixteenth Naval District at Cavite, Philippines, while Admiral Phelps's new command will be the Portsmouth navy yard.

JUE SO TAI FINDS DELAY ON PAY DAY

Suit of Chinese Actress Against Pantages Will be Heard Next Week

Trial of the law suit asserting breach of contract brought by Jue So Tai, Chinese actress, against Alexander Pantages wherein \$2375 back pay is asked, was continued by Superior Judge Shaw yesterday until next Tuesday at 9:30 a.m.

The continuance was granted on the grounds that Attorney W. A. Gilbert, counsel for the defendant, was busy in another hearing.

It is not likely that the Chinese actress will appear in court personally to prosecute her case because she is engaged in her profession in distant parts of the country. She will be represented by her attorney, Maurice A. Norcor. Her testimony in deposition form will be offered.

The actress says that she entered into a contract with Alexander Pantages at New York on June 3, 1927 to give her a specialty act for a period of fourteen weeks at a salary of \$125.00 per week and that Pantages terminated the contract without cause at the end of four weeks.

Two Arrested on Charge of Calf Stealing

James Lee, 24 years of age, and Charles Bailey, 28, of Bellflower, are in the County Jail charged with the theft of four calves from Hynes ranchers a month ago, following two weeks of pursuit by Deputy Sheriff's Godard and Borden.

The prisoners were returned to Los Angeles yesterday from Sacramento, where they were apprehended.

According to the officers the men stole four calves from C. L. Maben of Hynes, and another from Charles H. Harrington, a neighbor. The calves were found at an El Monte slaughter house, where they had been sold for \$35, the officers assert.

The defendants are charged with grand theft.

Wild alligators when hatched climbed upward in search of leafy food, but the domestic alligators merely wave their heads about and wait to be fed.

B.A. Dyas Co.

"Two Stores to Serve You"

Fashion opening

September 6th is the formal opening of fall.

To the fashionable women of California do we dedicate our new fall arrival, "Highlights" from the Paris Opening will be shown in our windows.

China Rose... An indescribably soft rose shade with a cast of orchid has taken Paris by storm—American women will love it, too. A dress from the Paris Opening has a deep yoke and hem of lace, with a gold cloth girdle. 195.00.

Sorrento... One of the deep, deep blue seas of fairyland is what this new blue shade makes one think of. An evening gown in this shade, covered with beads and paillettes is sketched right. 295.00.

Worth... Has created a flat, long handled bag of black acetate this fall—a replica is sketched. The two-part frame is gold plated. 18.50.

Rumble on... Soft, fleecy Donegal Irish Rugs present themselves in the form of smart sports coats this fall—so we've named them "Rumble Seat Coats." Their "warmth without weight" quality makes them acceptable for all sports occasions. 95.00.

Sports Velvets... For the women who look smarter and feel better in sports clothes we chose this two-piece sweater costume, the top of knitted wool Boucle, and a skirt of Sorrento blue velvet. 29.50.

Seventh at Olive. Hollywood at Vine.

## DYING CHINA

# WOUND VICTIM

**"Marked Man" Shot from  
Passing Auto**

**Suspect Arrested and Two  
Others Sought**

**Woman Describes Thrill  
Against Husband**

John R. (Jack) Wilson, 28 years of age, living at 2946 Francis avenue, narrowly escaped assassination last night when police authorities believe was an attempt by enemies to kill him.

Wilson was shot through the left hip by three men in an automobile who drove by as Wilson was standing in front corner of Vermont and Francis avenues. R. J. Seiser, a taxi driver, who was an eyewitness, told police that he saw the automobile carrying three men drive slowly by Wilson and suddenly heard three shots. Wilson crumpled to the walk and the automobile turned east in Francis avenue.

Two hours later Orville Forrester of 7224 Waring avenue, was located at his home by the investigating officers and taken to the Georgia-street Receiving Hospital where he was identified by Wilson as one of the occupants of the automobile. He was arrested on a charge of an act with a dangerous weapon with intent to commit murder and placed in the City Jail. He denied the shooting.

Detective Lieutenants Slater and Chandler of the Georgia division who apprehended Forrester, were attempting to locate a man and woman, whom they believe were involved in the shooting.

Mrs. Marie Wilson, wife of the injured man, was taken to the scene by friends. She told the authorities that she heard the shots and knew that her husband either had been killed or wounded. She declared that she heard her husband threatened about 6 p.m. by Forrester. She said she was at the Wilson home, she said, and during the conversation she asserts she heard Forrester say to her husband: "We are going to get you."

# SPIRITISTS CHURCHES SESSION

**State Association Opens  
Annual Convention Here;  
Speaker for Organization**

Spiritualists of California must organize more closely to further the

[illegible]

cause of their faith, Fred E. Stivers, resident of the California State

Practical Association, told 300 delegates of the organization at the opening of its thirty-third annual convention in the T.V.O. hall last night.

Business sessions of the society open today at 9 a.m. Fifty churches are represented at the convention, which is to be in session each day and evening until the 9th inst.

Services will make an address at tonight's session, with Florence Becker of the Golden Gate Spiritualist Church, San Francisco, and Mary Miller of the local Church of Christ, delivering messages from the workers.

The public is invited to attend the evening sessions, but morning sessions are open only to members of the society. The hall is located at 6 West Washington street.

## EXECUTION FOR FOE SIGHTS ABOLITION

---

### Capital Punishment Will be Ended in Ten Years, Speaker Declares

---

Every State in the Union will abolish capital punishment within the next ten years, was the assertion made last night by Miss Vivian Moore of New York, secretary of the League to Abolish Capital Punishment, at a mass meeting in the auditorium of a patriotic Hall.

Miss Pierce declared that her organization's arguments against the death penalty cannot be met by those favoring capital punishment and that such momentum is being gained throughout the country by the league it is just a matter of time until the eight States which have abolished the extreme penalty will be joined by all the others.

A number of new members were added last night to the California branch of the league, it was stated.

Dr. George L. Roper, an Alien. State attorney who presided.

Other speakers were Dr. E. K. Rydman, secretary of the Church Federation of Los Angeles; Dr. Miriam W. Wages; Howard Aaron J. Rosen, a psychiatrist.

## Claude J. Bane's Wife Wins Her Divorce Action

---

Claude J. Bane, a Wisconsin cattle raiser, defendant in a divorce action brought by his wife Alice, has failed to support her and three sons, according to Mrs. Bane, who appeared before Superior Judge Russell yesterday asking for a separation.

The couple lived together for thirty years, according to the testimony. They married on October 8, 1871, at Iowa City, Iowa. Three children were born, Robert L., 19 years of age; Howard Aaron, 17, and Russell George, 14.

The decree was granted on the grounds of nonsupport.

Bane's most formidable enemies are the once great beasts of the west; today he is more troubled by insignificant insects and invisible men.
